

MSU Athletic Training Immunization Policy

To comply with the Texas Administrative Code §97.61–97.77 all students, enrolled in health-related courses and will participate in coursework or clinical activities involving the contact with direct patient care and/or exposure to blood or bodily fluids must meet compliance with state-mandated immunizations. Students must complete state-mandated and ATRN program requirements to engage in courses with a clinical/lab component.

It is the students' responsibility to make sure they are in compliance at all times with these immunizations throughout their time as a student enrolled in the ATRN program. Noncompliance will result in being removed from clinical rotations

Students seeking admission to the MSU ATRN program must be compliant with these immunizations.

Deadlines: Failure to meet deadlines established may result in a withdrawal and/or dismissal from the program.

It is the students' responsibility to make sure they are in compliance at all times with these immunizations throughout the nursing program.

- Students seeking admission must be compliant with immunizations.
- Noncompliance with any of the immunizations, the student will be removed from clinical rotations this may mean the student is unable to complete the hours requirement associated with the clinical portion of the class.

Students must be in compliance at all times with the following immunizations while in the ATRN program:

TETANUS/DIPHTHERIA (Td)

MEASLES (RUBEOLA):

MUMPS

RUBELLA (GERMAN MEASLES):

VARICELLA (CHICKENPOX)

HEPATITIS B

TUBERCULIN SKIN TEST (TST)

All documents demonstrating proof of vaccine for immunization and Infection Control must be submitted to Certified Background to verification and compliance. MSU ATRN secretary and/or program director will verify compliance with Certified Background.

The MSU athletic training program will notify as student of non-compliance. Students who are non-compliant will be removed from clinical rotations until they are compliant. In order to start clinical rotations during August preseason the student must be immunization compliant.
