## AROUND CAMPUS

### Art Camp IV

The Wichita Falls Museum of Art at MSU will host Art Camp IV July 24-28 from 9-11:30 a.m. for children ages 6-9 and from 1-3:30 p.m. for ages 10 and older. Cost is \$80. Families with two or more children enrolling receive a 10-percent discount. For more information, call 940-397-8900, or register online at [wfmamsu.org](http://wfmamsu.org).

### Live at the Lake: Wichita Red and the Songbird

The Wichita Falls Museum of Art at MSU's Live at the Lake concert series presents Wichita Red and the Songbird from 6:30-8:30 p.m. Thursday, July 27, at the Priddy Pavilion at Sikes Lake. Admission is free. Bring blankets or lawn chairs. A food truck will be on site. Call the museum at 940-397-8900 for more information.

## MARK YOUR CALENDAR

### Early Orientation

All day Thursday, August 1.  
Call 940-397-4500 or visit  
[msu.edu/student-life/more/index](http://msu.edu/student-life/more/index).

## IN THE SPOTLIGHT

**Catherine Pankonien**, Assistant Professor, and **Betty Carlson Bowles**, Associate Professor in the Wilson School of Nursing, attended the International Conference on Nursing Science & Practice June 27 in Irving, Texas. Pankonien presented a research poster titled “Educating EMTs to Decrease Stress and Burnout” and Bowles presented two posters titled “Breast Massage: A

“Handy” Multipurpose Tool to Promote Breastfeeding Success,” and “First Do No Harm: Interventions During Childbirth” co-authored by Professors **Lauren Jansen**, **Marty Gibson**, and **Jane Leach**.

**Dr. Soon-Mi Choi**, Assistant Professor in the Department of Athletic Training & Exercise Physiology, had several presentations in South Korea June 1-23. The first presentation “Exercise and Aging,” was given at the Yonsei University in Seoul. The second, “Exercise vs. Diet, which is more important to reduce body weight?,” was given at the Kyung Hee University in Yongin. The third, “The role of exercise physiology in dance,” was given at the Sangmyung University in Seoul. The last presentation was at the 29th International Sport Science Congress at Dankook University in Cheonan, South Korea. The presentation was “The role of exercise physiology in dance.”

**Keith Williamson**, MSU physician and Vinson Medical Director, co-authored the article “LPS-Induced TLR4 Activation During Prolonged Running and Cycling Events in Hot and Humid Environments.” The article appears in *Federation of American Societies for Experimental Biology Journal*, April 2017, vol. 31 (1 Supplement): 1085.9. The article explores the activation of inflammatory pathways during exercise in hot environments as a part of understanding the pathophysiology of exertional heatstroke. Both cyclists in the Hotter 'n Hell Hundred and runners in the Falmouth Road Race had a significant elevation of lipopolysaccharide and an increase in cells expressing TLR-4 (toll-like receptor 4), the cognate receptor for LPS.
