The West College of Education (WCOE) annually requests a database from the Texas Education Agency (TEA) which provides employer information for MSU completers employed in the state of Texas. Using the data provided for academic year 2020-2021, the WCOE compared that data with its list of completers for the prior year to determine the number of completers that were employed in the state of Texas during the 2020-2021 academic year. Each of the three advanced programs’ data summary is provided below.

**Educational Diagnostician Employment Summary**

22 Completers
- 2 not employed or not employed in the state of Texas
- 9 (40%) employed as Educational Diagnosticians within one year of program completion
- 3 employed as Teacher Facilitators or other Campus Professional
- 8 employed as Teachers

Of the 22 completers, 4 did not take the Educational Diagnostician exam, a requirement for certification. The remaining 18 took and passed the exam for a 100% pass rate.

**Educational Leadership Employment Summary**

10 Completers
- 1 (10%) employed as assistant principal or principal within one year of program completion
- 1 employed as Teacher Supervisor
- 1 employed as Teacher Facilitators or other Campus Professional
- 7 employed as Teachers

Beginning in Fall of 2019, completers were required to pass both the Principal as Instructional Leader (TExES 268) exam and the Performance Assessment for School Leaders (PASL) in order to become certified principals. Prior, the PASL was not a requirement for certification. Of the ten completers, five completers have not taken either of the exams, three passed both exams required for certification and of the remaining one did not pass the PASL and the other did not pass the TExES 268 exam.

**School Counseling Employment Summary**

There were no School Counseling program completers for the academic year of 2019-2020.
