INTRODUCTION
This Handbook of Policies and Clinical Experiences for the Gordon T. and Ellen West School of Education (WCOE) at Midwestern State University provides general information, policies, procedures, and expectations for teacher candidates, school-based educators, and WCOE faculty. Under the mentorship of WCOE faculty and school/community mentors, teacher candidates participate in a variety of clinical experiences integrated into each program area. Our Professional Development School (PDS) model supports the gradual release of responsibility. Professional development school partners work together over time, building relationships and commitment to their shared goals. They develop new strategies, roles, and relationships to “develop the knowledge, skills, and professional dispositions necessary to demonstrate positive impact on all P-12 students’ learning and development” (CAEP, 2016).

Midwestern State University Mission and Values
Midwestern State University is a leading public liberal arts university committed to providing students with rigorous undergraduate and graduate education in the liberal arts and the professions. Through an emphasis upon teaching, augmented by the opportunity for students to engage in research and creative activities alongside faculty and to participate in co-curricular and service programs, Midwestern State prepares its graduates to embark upon their careers or pursue advanced study. The university’s undergraduate education is based upon a comprehensive arts and sciences core curriculum. The understanding that students gain of themselves, others, and the social and natural world prepares them to contribute constructively to society through their work and through their private lives.

Midwestern State University Values
- Excellence in teaching, learning, scholarship, and artistic production
- Intellectual curiosity and integrity
- Critical thinking
- Emotional and physical well-being
- Mutual respect, civility, and cooperation
- Social justice
- Civic service
- Stewardship of the environment, and of financial and human resources
- A safe, attractive, and well-designed campus

West College of Education Mission and Values
West College of Education Mission
The mission of the Gordon T. & Ellen West College of Education, a community of learners, is to prepare successful, reflective professionals through the use of best practice. Although the West College of Education has its roots in the preparation of teachers, principals, and school counselors, we also seek to prepare individuals who want to work as dyslexia specialists, reading specialists, educational diagnosticians, general counselors, human resources specialists, training and development specialists, and professionals in sports and leisure studies.

West College of Education Philosophy and Values
The West College of Education (WCOE) believes that learning changes both individuals and society. Developing resiliency and tolerance enhances an individual’s potential. Through education, the individual becomes a critical thinker and an effective problem solver. Individuals with a cause beyond self contribute to an informed, democratic, and synergistic society. Our faculty continually strives to establish a reflective and collaborative community to enhance the potential of both the learner and society. They are caring
and devoted to our mission and philosophy. Whether you seek a career in education or any of the other fields that share our college, we want you to walk away with the knowledge, experience, and confidence to step into a role as a leader in your field.

**COLLEGE COMMITTEES**

**Teacher Education Committee (TEC)**
The Teacher Education Committee, chaired by the WCOE Dean, oversees admission to the WCOE, clinical teaching, field experience requirements, and considers and recommends curricular changes within the undergraduate initial certification programs. Membership is comprised of all college Deans and Department Chairs directly associated with teacher preparation, the WCOE certification officer, WCOE accreditation specialist, WCOE placement specialist, as well as public-school representatives. The committee meets regularly at least two times per year.

**TEC Purpose**
The purpose of the Teacher Education Committee (TEC) is to advise the West College of Education on assessment, policies, and procedures related to enhancing undergraduate program quality and capacity, and to supporting sustained and evidence-based continuous improvement of all course and field-based learning experiences impacting P-12 student learning and development.

**TEC Roles and Responsibilities**
- Advise, review, evaluate, recommend and co-construct policies and procedures related to the evaluation and continuous improvement of WCOE undergraduate initial certification programs including: program evaluation/satisfaction, key assessments, student recruitment, student quality, and program impact on student learning.
- Advise, review, evaluate, recommend, co-construct, and implement policies and procedures related to the placement and evaluation of WCOE undergraduate students in field and clinical teaching experiences also including orientation/training and evaluation of clinical educators.
- Identify and address issues and concerns related to WCOE undergraduate program quality and capacity, continuous improvement, and field-based/clinical experiences.
- Review qualifications for university supervisors, cooperating teachers, clinical supervisors or any other certification personnel who either host or supervise candidates seeking initial certification.
- In this capacity, TEC may make recommendations in areas above for approval by WCOE College Council. University level changes must also be approved by MSU Graduate Council and/or MSU Academic Council, Board of Regents, Texas Higher Education Coordinating Board (THECB) and SACS.

**PROFESSIONAL DEVELOPMENT SCHOOLS**
Professional development schools (PDS) are partnerships articulated in agreement between professional education programs and P–12 schools. Their mission is professional preparation of actively engaged candidates, ongoing and reciprocal professional development, and a shared commitment to innovative and reflective practices (NAPDS, 2008). PDS are real schools, often in challenging settings, which have been redesigned and restructured to support their complex mission.

PDS have distinct characteristics. They are learning environments that support candidate and clinical educator development within the context of meeting all children’s needs. PDS partners are guided by a common vision of teaching and learning, which is grounded in research and practitioner knowledge. PDS
partners share responsibility for professionals and students; they blend their expertise and resources to meet their shared goals. PDS partners hold themselves accountable, and they are accountable to stakeholders for maintaining high standards for P–12 students, teacher candidates, clinical educators, and other professionals. In order to accomplish their goals, PDS partners create new roles, responsibilities, and structures; they utilize their resources differently. Finally, PDS partnerships are committed to providing equitable learning opportunities for all, and to preparing teacher candidates and clinical educators to meet the needs of diverse student populations (CAEP, 2016; NAPDS, 2008).

Professional development school partners work together over time, building relationships and commitment to their shared goals. They develop new strategies, roles, and relationships to “develop the knowledge, skills, and professional dispositions necessary to demonstrate positive impact on all P–12 students’ learning and development” (CAEP, 2016).

Memorandum of Understanding-PDS can be found in Appendix A.

**UNIT LEARNING OUTCOMES**
The learning outcomes for graduates of professional education programs offered by the West College of Education are aligned with Texas standards for Educator Preparation Programs (EPP) and the Interstate Teacher Assessment and Support Consortium (InTASC) standards, based upon knowledge, skills, and dispositions delineated in the following elements:

- **Learner Development**: The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

- **Learning Differences**: The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

- **Learning Environment**: The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

- **Content Knowledge**: The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

- **Application of Content**: The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

- **Assessment**: The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner’s decision making.

- **Planning for Instruction**: The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

- **Instructional Strategies**: The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to
build skills to apply knowledge in meaningful ways.

- **Professional Learning and Ethical Practice:** The teacher engages in ongoing professional learning and uses evidence to continually evaluate his or her practice, particularly the effects of his or her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

- **Leadership and Collaboration:** The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

**TEACHER EDUCATION ADMISSION REQUIREMENTS/IMPORTANT INFORMATION**

**Admission to the Teacher Certification Program**
The Teacher Education Committee expects all teacher education students to be above average scholars; therefore, to be considered for admission to the Teacher Certification program, the applicant must have

1. an application on file;
2. a 3.0 content GPA specific to candidate's area of specialization (for specific course per certification area, see program website);
3. at least 45 semester hours of credit; including a minimum grade of C in EDUC 2013 and COUN 2143 (unless otherwise specified in degree plan);
4. a cumulative grade point of 2.75;
5. a grade point of 3.0 in the communication core (excluding any developmental courses);
6. satisfactory completion of an interview (TAC 227.10); and
7. completed a minimum of 12 semester credit hours in the subject-area content coursework for the certification sought unless the certification is sought in mathematics or science which requires 15 semester credit hours of subject-area content coursework (TAC 227.10).

When the above steps have been successfully completed, the student's application to the teacher education program is submitted to the Teacher Education Committee. The Teacher Education Committee has the authority to accept or reject an applicant to teacher certification based on the applicant's file and other relevant information. Admission to the Teacher Education Program is highly selective. Should limitations on resources require restrictions to be placed on the number of students admitted in a given semester or year, the Teacher Education Committee will admit students according to the level of distinction achieved.

All students must be admitted to the program prior to enrolling in any professional education course. Students should complete all requirements and file for admission by the time they have completed 60 hours of credit.

Undergraduate students seeking teacher certification shall be advised by the West College of Education academic advisor.

**Teacher Candidate Interview**
Pre-admission teacher candidate applicants are required to successfully complete an interview to determine if the applicant’s knowledge, experience, skills, and aptitude are appropriate for the certification sought (TAC 227.10). The interview is a nationally normed process that is used to determine a candidate's potential as a future educator. An interview, as required by the state of Texas,
is one of several pieces of information along with the GPA, and grades in communication core classes that is utilized by the Teacher Education Committee for recommendations to the teacher education program. The committee votes on admissions several times per year.

**Transition Points/Benchmarks**
Candidates are required to understand the requirements of their certification program. During the orientation, they must review and understand the transition points related to their certification program. Candidates can view the transition points (requirements) for the teacher education program below.

**Transition Points/Benchmarks for the Teacher Education Program (TEP)**

</thead>
<tbody>
<tr>
<td>Teacher Admission Interview</td>
<td>(Preadmission)- 24 out of 45 (High Average Range*)</td>
</tr>
</tbody>
</table>

Candidates who do not meet the minimum cutoff score for admission to the teacher education program may appeal to the Dean of WCOE for a second interview. There is no appeal beyond this level.

| Disposition Assessment | Beginning (Ed Psych) - Acceptable in 7 of the 10 areas  
Developing (Methods) - Acceptable in 8 of the 10 areas  
Mastery (Clinical Teaching) - Acceptable in 8 of the 10 areas |

Candidates who do not meet the acceptable level on any of the three disposition assessments will receive intervention/remediation through a mentoring process initiated by the candidate with faculty member/instructor of record who completed the assessment. This process is intended to serve as part of the development of a new teacher and not a pass/fail or removal process.

| Lesson Plan | (Classroom Management) - must score at least a 23 of the 33-point total. |

Candidates who do not pass the lesson plan assessment as indicated above must rewrite the plan until it meets WCOE minimum expectations. Candidates will receive an F in Classroom Management until the lesson plan reaches a minimum level of proficiency.

Candidates have the responsibility to contact the instructor for remediation/mentoring in the appropriate development of a lesson plan. Once this process is complete, the candidate will receive the grade reflected by work/assignments/performance indicated in the syllabus. Catalog requirements regarding minimum grades for transition to the next courses still apply.
### Key Assessment | Transition Point/Cut Score
---|---
Unit Plan | (Methods) - score at least an 18 out of 27
Candidates who do not pass the unit plan assessment as indicated above must rewrite the plan until it meets WCOE minimum expectations. Candidates will receive an F in Methods until the unit plan reaches a minimum level of proficiency.
Candidates have the responsibility to contact the instructor for remediation/mentoring in the appropriate development of a unit plan.
Once this process is complete, the candidate will receive the grade reflected by work/assignments/performance indicates in the syllabus.
Catalog requirements regarding minimum grades for transition to the next courses still apply.

MISL | (Clinical Teaching) - score at least a 30 out of 40.
Candidates who do not pass the MISL as indicated above must rewrite the MISL until it meets WCOE minimum expectations. Candidates will receive an F in Clinical Teaching until the MISL reaches a minimum level of proficiency.
Candidates have the responsibility to contact the instructor for remediation/mentoring in the appropriate development of a MISL.
Once this process is complete, the candidate will receive the grade reflected by work/assignments/performance indicates in the syllabus.

WCOE Clinical Teaching Evaluation based on T-TESS | (Clinical Teaching) - There are 14 dimensions scored in this assessment, overall rating of developing or needs improvement in no more than 4 areas. Other 10 areas should be at proficient or higher.
A grade of C will be assigned for a student under the minimum conditions: Overall rating of developing or needs improvement in no more than 4 areas. Other 10 areas should be at proficient or higher.
A grade of B will be assigned for a student under the following conditions: Overall rating of developing or needs improvement in no more than 3 areas. Other 11 areas should be at proficient or higher.
A grade of A will be assigned for a student under the following conditions: Overall rating of developing or needs improvement in no more than 2 areas. Other 12 areas should be at proficient or higher.

### Dispositions Assessment
Candidates in the teacher education program are evaluated on their dispositions towards the 10 InTASC standards three times during their program (Educational Psychology, Professional Methods Block A, and Clinical Teaching) in the following areas:
- Candidates respect learners’ differing strengths and needs and are committed to using this information to further each learner’s development.
- Candidates believe that all learners can achieve at high levels and persist in helping each learner.
reach his/her full potential.

- Candidates are committed to working with learners, colleagues, families, and communities to establish positive and supportive learning environments.
- Candidates realize that content knowledge is not a fixed body of facts but is complex, culturally situated, and ever evolving. He or she keeps abreast of new ideas and understandings in the field.
- Candidates value flexible learning environments that encourage learner exploration, discovery, and expression across content areas.
- Candidates are committed to using multiple types of assessment processes to support, verify, and document learning.
- Candidates respect learners’ diverse strengths and needs and are committed to using this information to plan effective instruction.
- Candidates are committed to deepening awareness and understanding the strengths and needs of diverse learners when planning and adjusting instruction.
- Candidates take responsibility for student learning and use ongoing analysis and reflection to improve planning and practice.
- Candidates actively share responsibility for shaping and supporting the mission of his/her school as one of advocacy for learners and accountability for their success.

Candidates are evaluated by faculty in those courses at a beginning, developing, and mastery level of competency as evaluated by the teacher education committee. Throughout the program, candidates are evaluated based on evidence gathered through classroom activities, assignments, observations, candidate behavior, and interactions with others.

Candidates can view their disposition evaluation results in the college’s assessment management system (Tk20 by Watermark).

**ADMISSION TO CLINICAL TEACHING**

Students should make an application for clinical teaching by September 1 for the spring semester and February 15 for the fall semester. Consideration for admission requires a 2.75 overall GPA, a 3.0 GPA in content specific coursework, a 3.0 in professional education coursework and the dean’s approval in professional education and each teaching field. A grade of “D” in a course required for certification cannot be used in a student’s teaching field, major, minor, or professional education courses. Students may be required to pass qualifying exams in their respective colleges prior to being admitted to clinical teaching. Thirty-six hours of field experiences, with at least one-half at the appropriate teaching level, must be completed before clinical teaching begins. Complete applications are approved by the Teacher Education Committee. Fall applications may not be approved until August if the student has summer courses to complete.

All required content including major and minor courses along with professional education courses must be completed prior to clinical teaching.

Clinical teaching will be full days for one semester (fall or spring).

Teacher candidates seeking elementary certification must have completed EDUC 2013, EDUC 3163, EDUC 4033, EDUC 4043, EDUC 4053, EPSY 3153, ETEC 4003, READ 4203, READ 4213, READ 4223, and SPED 3613, prior to clinical teaching.
Teacher candidates seeking middle school certification must have completed EDUC 2013, EDUC 3163, EDUC 4063, EDUC 4073, EDUC 4083, EPSY 3153, ETEC 4003, READ 4223, READ 4233, READ 4243, and SPED 3613, prior to clinical teaching.

Teacher Candidates seeking secondary certification must have completed EDUC 2013, EDUC 3163, EDUC 3183, EDUC 4063 or EDUC 4073 or EDUC 4083 or READ 4233/4243, EPSY 3153, ETEC 4003, READ 4273, and SPED 3613 prior to clinical teaching.

Teacher Candidates seeking all level certification must have completed EDUC 2013, EDUC 3163, EDUC 3183, ART 4403 or MUSC 4873 or EDUC 4063 or EDUC 4073 or EDUC 4083 or EDUC 4113 or READ 4243 or THEA 4113, EPSY 3153, ETEC 4003, READ 4273, and SPED 3613 prior to clinical teaching.

Clinical teaching will be full days (at least 7 hours per day) for 14 weeks.

**Important Reminders and Deadlines**
Teacher candidates should make application for clinical teaching by September 1 for the spring semester and by February 15 for the fall semester.

**TEACHER CANDIDATE INFORMATION**

**Attendance Policy**
Professional teachers are dependable, reliable, and responsible. Therefore, candidates are expected to be on time and in attendance at every class/clinical experience, and to stay for the entire class/clinical experience. Tardiness, leaving early, and excessive absences (3 or more) are considered evidence of lack of dependability, and are taken seriously. Candidates will receive a grade of F on the third absence. If a candidate is taking ‘blocked’ courses that are taught at a Professional Development School, requiring field experience, the candidate will be dropped with an F from those classes as well.

An instructor may drop a candidate any time during the semester for excessive absences, for consistently failing to meet class assignments, for an indifferent attitude, or for disruptive conduct. The instructor must give the student a verbal or written warning prior to dropping the student from the class. An instructor’s drop of a student takes precedence over the student-initiated course drop of a later date. The instructor will assign a grade of either WF or F through the first 8 weeks of a long semester, the first 6 weeks of a 10-week summer term, or the 11th class day of a 4 or 5-week summer term consisting of 20 days. After these periods the grade will be an F. The date the instructor drop form is received in the Office of the Registrar is the official drop date.

**Professional Learning and Ethical Practice**
Teacher candidates are expected to engage in ongoing professional learning and use evidence to continually evaluate his or her practice, particularly the effects of his or her choices and actions on others (learners, families, other professionals, and the community), and adapt their practice to meet the needs of each learner.
## Code of Ethical Conduct: Texas Administrative Code

All students, faculty, and staff are required to adhere to the Educators’ Code of Ethics as defined in [19 TAC §247.2](https://www.tac.state.tx.us/tac/chapter247) and as shown below.

<table>
<thead>
<tr>
<th>Texas Administrative Code</th>

<tr>
<td>PART 7</td>
<td>STATE BOARD FOR EDUCATOR CERTIFICATION</td>
</tr>
<tr>
<td>CHAPTER 247</td>
<td>EDUCATORS’ CODE OF ETHICS</td>
</tr>
<tr>
<td>RULE §247.2</td>
<td>Code of Ethics and Standard Practices for Texas Educators</td>
</tr>
</tbody>
</table>

Enforceable Standards.

   a. Standard 1.1. The educator shall not intentionally, knowingly, or recklessly engage in deceptive practices regarding official policies of the school district, educational institution, educator preparation program, the Texas Education Agency, or the State Board for Educator Certification (SBEC) and its certification process.
   b. Standard 1.2. The educator shall not knowingly misappropriate, divert, or use monies, personnel, property, or equipment committed to his or her charge for personal gain or advantage.
   c. Standard 1.3. The educator shall not submit fraudulent requests for reimbursement, expenses, or pay.
   d. Standard 1.4. The educator shall not use institutional or professional privileges for personal or partisan advantage.
   e. Standard 1.5. The educator shall neither accept nor offer gratuities, gifts, or favors that impair professional judgment or to obtain special advantage. This standard shall not restrict the acceptance of gifts or tokens offered and accepted openly from students, parents of students, or other persons or organizations in recognition or appreciation of service.
   f. Standard 1.6. The educator shall not falsify records, or direct or coerce others to do so.
   g. Standard 1.7. The educator shall comply with state regulations, written local school board policies, and other state and federal laws.
   h. Standard 1.8. The educator shall apply for, accept, offer, or assign a position or a responsibility on the basis of professional qualifications.
   i. Standard 1.9. The educator shall not make threats of violence against school district employees, school board members, students, or parents of students.
   j. Standard 1.10. The educator shall be of good moral character and be worthy to instruct or supervise the youth of this state.
   k. Standard 1.11. The educator shall not intentionally or knowingly misrepresent his or her employment history, criminal history, and/or disciplinary record when applying for subsequent employment.
   l. Standard 1.12. The educator shall refrain from the illegal use or distribution of controlled substances and/or abuse of prescription drugs and toxic inhalants.
   m. Standard 1.13. The educator shall not be under the influence of alcohol or consume alcoholic beverages on school property or during school activities when students are present.
   n. Standard 1.14. The educator shall not assist another educator, school employee, contractor, or agent in obtaining a new job as an educator or in a school, apart from the routine transmission of administrative and personnel files, if the educator knows or has probable cause to believe that such person engaged in sexual misconduct regarding a minor or student in violation of the law.

2. Ethical Conduct Toward Professional Colleagues.
   a. Standard 2.1. The educator shall not reveal confidential health or personnel information concerning colleagues unless disclosure serves lawful professional purposes or is required by law.
   b. Standard 2.2. The educator shall not harm others by knowingly making false statements about a colleague or the school system.
   c. Standard 2.3. The educator shall adhere to written local school board policies and state and federal laws regarding the hiring, evaluation, and dismissal of personnel.
   d. Standard 2.4. The educator shall not interfere with a colleague’s exercise of political,
e. Standard 2.5. The educator shall not discriminate against or coerce a colleague on the basis of race, color, religion, national origin, age, gender, disability, family status, or sexual orientation.

f. Standard 2.6. The educator shall not use coercive means or promise of special treatment in order to influence professional decisions or colleagues.

g. Standard 2.7. The educator shall not retaliate against any individual who has filed a complaint with the SBEC or who provides information for a disciplinary investigation or proceeding under this chapter.

3. Ethical Conduct Toward Students.

a. Standard 3.1. The educator shall not reveal confidential information concerning students unless disclosure serves lawful professional purposes or is required by law.

b. Standard 3.2. The educator shall not intentionally, knowingly, or recklessly treat a student or minor in a manner that adversely affects or endangers the learning, physical health, mental health, or safety of the student or minor.

c. Standard 3.3. The educator shall not intentionally, knowingly, or recklessly misrepresent facts regarding a student.

d. Standard 3.4. The educator shall not exclude a student from participation in a program, deny benefits to a student, or grant an advantage to a student on the basis of race, color, gender, disability, national origin, religion, family status, or sexual orientation.

e. Standard 3.5. The educator shall not intentionally, knowingly, or recklessly engage in physical mistreatment, neglect, or abuse of a student or minor.

f. Standard 3.6. The educator shall not solicit or engage in sexual conduct or a romantic relationship with a student or minor.

g. Standard 3.7. The educator shall not furnish alcohol or illegal/unauthorized drugs to any person under 21 years of age unless the educator is a parent or guardian of that child or knowingly allow any person under 21 years of age unless the educator is a parent or guardian of that child to consume alcohol or illegal/unauthorized drugs in the presence of the educator.

h. Standard 3.8. The educator shall maintain appropriate professional educator-student relationships and boundaries based on a reasonably prudent educator standard.

i. Standard 3.9. The educator shall refrain from inappropriate communication with a student or minor, including, but not limited to, electronic communication such as cell phone, text messaging, email, instant messaging, blogging, or other social network communication. Factors that may be considered in assessing whether the communication is inappropriate include, but are not limited to:

   i. the nature, purpose, timing, and amount of the communication;

   ii. the subject matter of the communication;

   iii. whether the communication was made openly or the educator attempted to conceal the communication;

   iv. whether the communication could be reasonably interpreted as soliciting sexual contact or a romantic relationship;

   v. whether the communication was sexually explicit; and

   vi. Whether the communication involved discussion(s) of the physical or sexual attractiveness or the sexual history, activities, preferences, or fantasies of either the educator or the student.

Source Note: The provisions of this §247.2 adopted to be effective March 1, 1998, 23 TexReg 1022; amended to be effective August 22, 2002, 27 TexReg 7530; amended to be effective December 26, 2010, 35 TexReg 11242; amended to be effective December 27, 2016, 41 TexReg 10329
**Reporting Suspicion or Incidence of Child Abuse**

Texas law says anyone who thinks a child, or person 65 years or older, or an adult with disabilities is being abused, neglected, or exploited must report it to the Department of Family and Protective Services (DFPS). A person who reports abuse in good faith is immune from civil or criminal liability. DFPS keeps the name of the person making the report confidential. Anyone who does not report suspected abuse can be held liable for a misdemeanor or felony. Time frames for investigating reports are based on the severity of the allegations. Teacher candidates should report abuse to the building administrator, WCOE school-based educator, and the Texas Abuse Hotline (1-800-252-5400).

**Fitness for the Teaching Profession and Counseling Out of Program**

Admitted teacher candidates are expected to meet specified non-academic standards that are necessary to be competent teachers. The intent is to ensure that the students recommended for teacher certification are able to effectively and independently carry out the duties for which they are being prepared. The fitness criteria include personality characteristics, responsibility characteristics, communication skills, social relationships, and commitment to the teaching profession. Students who have been identified with a demonstrable discrepancy by one or more professors or cooperating teachers will meet with the Fitness Alert Committee to discuss options and develop a growth plan. The Fitness Alert Committee consists of three faculty members in the West College of Education appointed by a department chair. Failure to make satisfactory progress on the growth plan may result in denied admission to clinical teaching or removal from the program. In extreme cases, the student may be immediately removed.

**Professional Fitness Alert Policy and Procedure Policy**

If any WCOE degree candidate demonstrates inappropriate behavior leading a faculty member to question the student’s fitness for assuming a professional role, the professor will warn the student that said behavior is unacceptable and will document the warning/s. If the student’s behavior and/or response to warnings do not demonstrate a change, the faculty member will complete the *Professional Fitness Alert Form* and inform the student of the following steps that will occur.

If a candidate shows an egregious lack of judgment suggesting lack of professional fitness, a fitness form may be issued without a previous warning. The five-member fitness alert committee is appointed by the dean and includes at least one representative from outside the candidate’s department.

**Procedure**

Issuing the Professional Fitness Alert Form requires the following action.

1. Professor issuing professional fitness alert form will attach accompanying narrative to document the situation or incident and give both to his/her department chair.
2. Department chair will give the professional fitness alert to the fitness alert committee chair.
3. Fitness alert committee will meet to determine if professional fitness alert documentation meets minimum requirements.
4. The student’s program coordinator and the student will receive a copy.
5. Within ten days from the time the *Professional Fitness Form* was submitted, the committee will convene and meet with the student and the reporting faculty member.
6. The situation will be described and discussed. The committee can dismiss the complaint, issue the *Intervention and Growth Plan*, or dismiss the student from the academic program.
7. The student, the program coordinator, and the department chair will receive a copy of the decision of the committee.

8. During the intervention period, if credible information of continued inappropriate behavior is brought to the attention of the committee in writing, the professional fitness alert committee will reconvene to consider further action.

*During the intervention period if credible information of continued inappropriate behavior is brought to the attention of the committee in writing, the fitness alert committee will reconvene to consider further action.

Counseling – candidates who have repeated issues with Fitness Alerts or concerns forwarded to a department chair, certification officer, or dean may receive counseling regarding the appropriateness of the teaching profession. WCOE concerns may be based upon the knowledge, skills, and/or dispositions outlined in syllabi and the conceptual framework, but may also include engagement in the profession. WCOE is ultimately responsible for the performance of its completers and reserves the right to determine who is identified as a WCOE teacher/educator professional.

Procedure: Issuing the Professional Fitness Form requires the following actions:
WCOE Complaint Process Complaints:
In this policy, the terms “complaint” and “grievance” shall have the same meaning.

Other Complaint Processes:
Stakeholder complaints shall be filed in accordance with this policy, except as required by the policies listed below. Some of these policies require appeals to be submitted in accordance with this complaint policy after the relevant complaint process:

1. Complaints alleging discrimination or harassment based on race, color, gender, national origin, disability, or religion shall be submitted in accordance with policy.
2. Complaints concerning retaliation related to discrimination and harassment shall be submitted in accordance with policy.
3. Complaints concerning identification, evaluation, or educational placement of a student with a disability within the scope of Section 504 shall be submitted in accordance with policy and the procedural safeguards handbook.
4. Complaints concerning identification, evaluation, educational placement, or discipline of a student with a disability within the scope of the Individuals with Disabilities Education Act shall be submitted in accordance with policy, and the procedural safeguards handbook.

Notice to Stakeholders:
The West College of Education (WCOE) shall inform stakeholders of this policy by information posted in the physical facility, on the website or, upon request, written information.

Guiding Principles: Informal Process:
WCOE encourages stakeholders to discuss their concerns with the appropriate employee who has the authority to address the concerns. Concerns should be expressed as soon as possible to allow early resolution at the lowest possible level. Informal resolution shall be encouraged but shall not extend any deadlines in this policy, except by mutual written consent.

Formal Process:
A stakeholder may initiate the formal process described above by timely filing a written complaint form. Even after initiating the formal complaint process, stakeholders are encouraged to seek informal resolution of their concerns. A stakeholder whose concerns are resolved may withdraw a formal complaint at any time. The process described in this policy shall not be construed to create new or additional rights beyond those granted by law or WCOE policy, nor to require a full evidentiary hearing or “mini-trial” at any level.

Freedom from Retaliation:
Neither the WCOE nor any WCOE employee shall unlawfully retaliate against any stakeholder for bringing a concern or complaint.

General Provisions Filing:
Complaint forms and appeal notices may be filed by hand-delivery, by electronic communication, including e-mail and fax, or by U.S. Mail. Hand-delivered filings shall be timely filed if received by the
appropriate WCOE employee by the close of business on the deadline. Filings submitted by electronic communication shall be timely filed if they are received by the close of business on the deadline, as indicated by the date and time shown on the electronic communication. Mail filings shall be timely filed if they are postmarked by U.S. Mail on or before the deadline and received by the appropriate WCOE employee no more than three days after the deadline.

Scheduling Conferences:
WCOE shall make reasonable attempts to schedule conferences at a mutually agreeable time. If a stakeholder fails to appear at a scheduled conference, the WCOE may hold the conference and issue a decision in the stakeholder’s absence.

Response:
At Levels One and Two, “response” shall mean a written communication to the stakeholder from the appropriate employee. Responses may be hand-delivered, sent by electronic communication to the stakeholder’s e-mail address of record, or sent by U.S. Mail to the stakeholder’s mailing address of record. Mailed responses shall be timely if they are postmarked by U.S. Mail on or before the deadline.

Days:
“Days” shall mean university business days. In calculating time lines under this policy, the day document is filed is “day zero.” The following business day is “day one.”

Representative:
“Representative” shall mean any person who or organization that is designated by the stakeholder to represent the stakeholder in the complaint process. The stakeholder may designate a representative through written notice to the WCOE at any level of this process. If the stakeholder designates a representative with fewer than three days’ notice to WCOE before a scheduled conference or hearing, the WCOE may reschedule the conference or hearing to a later date, if desired, in order to include the WCOE’s counsel. The WCOE may be represented by counsel at any level of the process.

Consolidating Complaints:
Complaints arising out of an event or a series of related events shall be addressed in one complaint. A stakeholder shall not file separate or serial complaints arising from any event or series of events that have been or could have been addressed in a previous complaint.

Untimely Filings:
All time limits shall be strictly followed unless modified by mutual written consent. If a complaint form or appeal notice is not timely filed, the complaint may be dismissed, on written notice to the stakeholder, at any point during the complaint process. The stakeholder may appeal the dismissal by seeking review in writing within ten days from the date of the written dismissal notice, starting at the level at which the complaint was dismissed. Such appeal shall be limited to the issue of timeliness.

Costs Incurred:
Each party shall pay its own costs incurred in the course of the complaint.

Complaint and Appeal Forms:
Complaints and appeals under this policy shall be submitted in writing on a form provided by the WCOE. Copies of any documents that support the complaint should be attached to the complaint form. If the stakeholder does not have copies of these documents, copies may be presented at the Level One
conference. After the Level One conference, no new documents may be submitted by the support unless the stakeholder did not know the documents existed before the Level One conference. A complaint or appeal form that is incomplete in any material aspect may be dismissed but may be re-filed with all the required information if the re-filing is within the designated time for filing.

**Level One:**
Complaint forms must be filed:

a. Within 15 days of the date the stakeholder first knew, or with reasonable diligence should have known, of the decision or action giving rise to the complaint or grievance; and

b. With the lowest level WCOE employee who has the authority to remedy the alleged problem. If the only WCOE employee who has authority to remedy the alleged problem is the WCOE legal authority or designee whom the complaint is about, the complaint may begin at Level Two following the procedure, including deadlines, for filing the complaint form at Level One. If the complaint is not filed with the appropriate employee, the receiving employee must note the date and time the complaint form was received and immediately forward the complaint form to the appropriate employee.

The appropriate WCOE employee shall investigate as necessary and schedule a conference with the stakeholder within ten days after receipt of the written complaint. The WCOE employee may set reasonable time limits for the conference. Absent extenuating circumstances, the WCOE employee shall provide the stakeholder a written response within ten days following the conference. In reaching a decision, the WCOE employee may consider information provided at the Level One conference and any other relevant documents or information the WCOE employee believes will help resolve the complaint.

**Level Two:**
If the stakeholder did not receive the relief requested at Level One or if the time for a response has expired, the stakeholder may request a conference with the WCOE legal authority or designee to appeal the Level One decision. The appeal notice must be filed in writing, on a form provided by the WCOE, within ten days of the date of the written Level One response or, if no response was received, within ten days of the Level One response deadline. After receiving notice of the appeal, the Level One WCOE employee shall prepare and forward a record of the Level One complaint to the Level Two Program legal authority or designee. The stakeholder may request a copy of the Level One record.

The Level One record shall include:

1. The original complaint form and any attachments.
2. All other documents submitted by the stakeholder at Level One.
3. The written response issued at Level One and any attachments.
4. All other documents relied upon by the Level One Program employee in reaching the Level One decision.

The Program legal authority or designee shall schedule a conference within ten days after the appeal notice is filed. The conference shall be limited to the issues and documents considered at Level One. At the conference, the stakeholder may provide information concerning any documents or information relied upon by the Program employee for the Level One decision. The Program legal authority or designee may set reasonable time limits for the conference. The Program legal authority or designee shall provide the stakeholder a written response within ten days following the conference. In reaching a decision, the WCOE legal authority or designee may consider the Level One record, information
provided at the Level Two conference, and any other relevant documents or information the WCOE legal authority or designee believes will help resolve the complaint. Recordings of the Level One and Level Two conferences, if any, shall be maintained with the Level One and Level Two records.

If the complaint WCOE employee who has authority to remedy the alleged problem is the WCOE legal authority or designee, the complaint may begin at Level Two following the procedure, including deadlines, for filing the complaint form at Level One.

Complaints to the Texas Education Agency:
If the stakeholder is not satisfied with the complaint process or outcome, the stakeholder may file a complaint against the Program with the Texas Education Agency. The official Texas Education Agency complaint process can be found at: http://tea.texas.gov/About_TEA/Contact_Us/Complaints/Complaints/.

CRIMINAL BACKGROUND CHECKS
Pursuant to the Texas Education Code (TEC), §22.083, candidates must undergo a criminal history background check prior to employment as an educator; and pursuant to the TEC, §22.0835, candidates must undergo a criminal history background check prior to clinical teaching.

Notification of Criminal Conviction, Denial of Certification, and Criminal Background Checks

Condition of Certification
As required by Texas Occupations Code (TOC), Section 53.152, candidates should be aware that an individual who has been convicted of any offense, in any state, may be denied an initial or advanced certificate. By completing the admission process into an initial or advanced program, each individual is aware that even after completion of a degree, if at any point that individual was convicted of any crime, of any degree, he/she may still graduate from the program but may be denied a certificate by the State Board of Educator Certification.

Preliminary Checks
All candidates enrolled in an educator preparation program are eligible to request a Preliminary Criminal History Evaluation. A Preliminary Criminal History Evaluation is a non-mandatory, non-binding evaluation of an individual's self-reported criminal history. Information on Preliminary Criminal History Evaluations can be found on the TEA Texas Education Agency website.

Entrance to Public Schools
Candidates are required to complete a criminal background check for entrance into public schools. There is variation in the degree of background checks across school districts. These background checks may take as much as 3 weeks to complete before a candidate may enter a public-school classroom. It is at the discretion of the district, not the EPP, as to how, when, and where these background checks are conducted. In addition, a school district reserves the right to deny entry to any person, regardless of the result of the background check.

Burkburnett ISD
Burkburnett ISD requires candidates completing clinical teaching/interns to complete the fingerprinting
process before starting their clinical/field assignments. Teacher candidate data will be uploaded to the State Board of Education Certification (SBEC). The clinical teacher/intern will not be required to complete this process again when they apply for their certification. Teacher candidate fingerprints will be applied to their teaching certification within approximately 48 hours of the certification request. All BISD teacher candidates will receive information on this process from their professional block instructors and/or certification office.

**Wichita Falls ISD**

Wichita Falls ISD requires candidates completing clinical teaching/interns to complete a background screening. All WFISD teacher candidates will receive information on this process from the WCOE certification office.

Wichita Falls Independent School District:

**MSU Student Observer Application Process**

- Go to www.wfisd.net
- On the left-hand side of page, under “District Resources”, click on Observer/Student Teacher Application
- Click Volunteer/Student Teacher
- Click on “Apply for this Position” on the right-hand side
- If you are a new application, click “Create New Account and Apply” under I am a new applicant.
- If you already have a Recruit & Hire account with WFISD, enter an existing username and password and sign in.

After completing this process, teacher candidates will receive email verification. Once the background check has been completed, another e-mail will be sent.

**CLINICAL EXPERIENCES**

Clinical experiences at the WCOE, including both initial clinical experiences (e.g., classroom observations) and clinical teaching, are an essential part of the professional preparation program. Clinical experiences vary across many WCOE undergraduate programs and are designed and implemented through collaboration with school district and community partners. WCOE teacher candidates gain essential knowledge, skills, and dispositions through observations and teaching opportunities in a wide variety of diverse settings (e.g., urban/rural, SES, special needs, race/ethnicity). The Office of Certification serves as a liaison between WCOE and school districts and other community partners.

- **Classroom Observations** – initial field experiences involving reflective observations of P-12 students, teachers, and faculty/staff members engaging in educational activities in a school setting.
- **Individual Student Observations** – initial field experiences involving reflective observations of individual P-12 students.
- **Teacher Assistant** – assisting the teacher of record in educational activities in a school setting.
- **Lab Assistant** – assisting the teacher of record in educational scientific activities in a school lab setting.
- **Tutoring** – additional, special, remedial, or accelerated instruction involving a single student or very small group.
- **Whole Group Instruction** – instruction and support that involves the whole-class.
• Small Group Instruction – instruction and support that involves students working together in small groups.
• Field-Based Projects – field experiences working with P-12 students outside a typical classroom setting.
• Clinical Teaching – minimum of 14-week full day classroom teaching experience at a Texas Education Agency (TEA) approved school under the supervision of a cooperating teaching and university supervisor.
• Internship/Probationary – A supervised full-time educator assignment for one full school year at a TEA approved school under the supervision of a university supervisor and teacher mentor.

Documenting Clinical Experiences
All teacher candidates are expected to complete and submit time logs for each day they are in the field. Time logs are submitted through the assessment management system, Tk20 by Watermark. These logs will be approved by the classroom teacher.

A minimum of 36 clock hours of field experiences are required before teacher candidates are allowed to begin clinical teaching. Clinical teaching is a minimum of 455 clock hours (minimum 70 days, 7 hrs. per day).

Admission to Clinical Teaching
Students should make an application for clinical teaching by September 1 for the spring semester and February 15 for the fall semester. Consideration for admission requires a 2.75 overall GPA, a 3.0 GPA in content specific coursework, a 3.0 GPA in professional education coursework and the dean’s approval in professional education and each teaching field. A grade of “D” in a course required for certification cannot be used in a student’s teaching field, major, minor, or professional education courses. Students may be required to pass qualifying exams in their respective colleges prior to being admitted to clinical teaching. Thirty-six hours of field experiences, with at least one-half at the appropriate teaching level, must be completed before clinical teaching begins. Complete applications are approved by the Teacher Education Committee. Fall applications may not be approved until August if the student has summer courses to complete.

All coursework and required testing must be completed prior to clinical teaching.

Clinical teaching will be full days for 14 weeks.

Attendance Policy
Candidates are required to attend their clinical teaching placement every day they are scheduled. All candidates must log a minimum of 70 full days of clinical teaching. Candidates must make up any days they are absent from their clinical teaching placement.

Professional Attire
The West College of Education dress code for clinical experiences is based upon that of the Wichita Falls and Burkburnett ISD and is similar to the expectations of most area schools. Teacher candidates visiting public schools, for any MSU-related purpose should follow school district dress codes (professional methods courses, internships, practicum, tutoring, clinical teaching, etc.). Teacher candidates are expected to dress appropriately for their area of work so as to project a professional image. Daily personal grooming is expected for all teacher candidates. Jeans may be worn on “spirit
days” or other special days as approved by the school administrator. Clarification related to acceptable and/or unacceptable dress during clinical experiences should be addressed to the WCOE school-based educator and/or department head, principal, or personnel director. For physical education methods and athletic classes teacher candidates shall dress for participation. Appropriate attire may include shorts, slacks, or sweats. Athletic-style P.E. shorts are not to be worn in the halls or any other place in the school building except where physical education or athletics classes are being conducted. Appropriate undergarments are part of being professionally attired. Teachers are expected to work closely with a diversity of students under a variety of conditions while maintaining respect and dignity. Excessive or unusual piercings are prohibited. Any piercings (studs, rings, etc.), should be left at home if they are visible and/or otherwise interrupt instruction. Tattoos must be covered during all clinical experiences. At no time shall teacher candidate clothing violate the student dress code in place.

Prohibited:

- Short shorts, athletic shorts such as wind shorts or bicycle shorts
- Bare midriffs; halter tops; tank tops; tube tops; see-through tops
- Tight-fitting warm-ups or jogging suits
- Miniskirts; sundresses; sagging pants
- Clothing with inappropriate messages or logos

Professional Behavior

Candidates are expected to assist in maintaining a classroom environment, which is conducive to learning. In order to assure that all students have the opportunity to gain from time spent in class/clinical experiences, unless otherwise approved by the instructor, candidates are prohibited from engaging in any form of distraction—including cell phones or other electronic devices. Electronic communications devices will be turned off any time the candidate is in the school building—in MSU’s classrooms or in a field experience classroom. Inappropriate behavior in the classroom shall result, minimally, in a request to leave class and a Professional Fitness Form will be filed for review with the college. If the instructor must file a Fitness Alert Form for any reason, including failure to demonstrate appropriate teaching dispositions, the candidate may receive an instructor drop with an “F” for the course.

Participation in classes at a Professional Development School are a privilege, not a right. Our relationship with these schools is critical to the development of strong teachers. If, for ANY reason, a candidate is asked to leave a Professional Development School, the candidate will be dropped from the course in accordance with the Instructor Drop policy of the academic catalog. If a candidate is taking ‘blocked’ courses that are taught at a Professional Development School, requiring clinical experience, the candidate will be dropped with an F from those classes as well.

All clinical teachers must adhere to the Educator’s Code of Ethics at all times.

Clinical Teaching Evaluation

A Clinical Teaching Evaluation is used to assess the overall performance of each teacher candidate. This evaluation model is adapted from the Texas Teacher Evaluation and Support System (T-TESS), a system used by all public schools in the state of Texas to give teachers continuous and formative feedback to help them improve practice. A three-step evaluation process among clinical teachers, university supervisors, and cooperating teachers provides timely and continuous feedback regarding the candidate’s overall performance during the clinical teaching experience. The clinical teacher completes
a Final Evaluation form which reflects his/her estimate of strengths as well as areas for improvement.

The university supervisor and cooperating teacher complete a Clinical Teacher Evaluation Report in order to jointly evaluate the candidate's performance. The professional practice evaluation is designed to provide a formative and summative evaluation of candidates based upon four dimensions: Planning, Instruction, Learning Environments, and Professional Practices and Responsibilities. Each dimension is further divided into sub areas that address the professional and pedagogical responsibilities of each candidate (see WCOE Clinical Teaching Evaluation in the appendix). For each dimension, teacher candidates may receive one of four ratings: Accomplished, Proficient, Developing, and Improvement Needed. Data from these assessments are used for both unit and program improvement as well for making decisions about candidates’ preparedness.

**Planning Instruction: Unit and Lesson Planning, Assessment, Delivery, and Reflection**

Teacher candidates must demonstrate the ability to plan, assess, and implement instruction. During the professional methods courses and clinical teaching, candidates are required to determine a set of multiple learning objectives aligned to state content standards (TEKS) appropriate to the lesson(s) the candidate is preparing.

Candidates must then form an assessment strategy to determine the extent to which students are able to master learning of objectives. Candidates then describe the instructional delivery method addressing the following step-by-step procedures:

1. Questions and concerns listed in the directions given to you by your instructor
2. Setting purposes (“Today we will be...I want you to...because you will...“)
3. Method(s) for engaging students in the lesson
4. Any questions asked during the lesson should be in bold
5. Higher order thinking reflected in questions
7. Grouping: when and how
8. Instruction that addresses learners’ needs (ELLs, Special Education, 504, Gifted, Struggling Learner)
9. Closure

After teaching the lesson, candidates are then required to reflect on the lesson delivery, appropriateness of instructional strategies, impact for future planning, and opportunities for collaboration with mentor teacher. Please see Clinical Experience Forms and Templates section for unit plan rubric/content area addendums and lesson plan form/rubric.

**Teacher Candidate Expectations/Responsibilities:**

**Methods: Blocks A & B/Kinesiology/Music, Art, and Theatre Methods**

- Planning
  - Collaborates with the WCOE faculty and school-based educators to plan lessons and schedule learning activities for successful achievement of the expected outcomes.
  - Co-constructs a plan for gradual increase of classroom responsibilities and teaching.
  - Plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.
• Plans a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

• Teaching
  • Demonstrates effective best practices in teaching and uses differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.
  • Reflects and explains rationale for teaching decisions for insight into the teaching profession.
  • Engages in opportunities for working with individuals, small groups, and whole class.
  • Incorporates feedback from WCOE faculty and school-based educators into planning, teaching, and assessment.
  • Applies understanding of how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and design and implements developmentally appropriate and challenging learning experiences.
  • Applies and reflects upon individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.
  • Demonstrates an understanding of the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

• Assessment
  • Holds regular conferences with the WCOE faculty and school-based educators to reflect on feedback on performance, strengths, and areas for improvement.
  • Implements multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.

• Learning Environment
  • Works with WCOE faculty and school-based educators to create environments that support individual and collaborative learning.
  • Demonstrates and validates a minimum of 36 hours of positive social interaction, active engagement in learning, and self-motivation.
  • Seeks appropriate roles and responsibilities for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.
  • Collaborates with school-based educators to ensure technology-enhanced learning opportunities.

Clinical Teaching: Clinical Teacher Expectations/Responsibilities
  • The clinical teacher will develop deeper insights and understanding of the mental, emotional, social, and physical development of the students.
  • The clinical teacher will select, organize, and present learning experiences in a variety of ways.
  • The clinical teacher will respond to the abilities, needs, interests, aptitudes, and goals of learners so that effective learning experiences can be provided.
  • The clinical teacher will develop a professional interest and a personal enthusiasm for
teaching.
- The clinical teacher will implement educational philosophy and theory in daily classroom teaching situations.
- The clinical teacher will gain insight into current research and its application to education.
- The clinical teaching program will provide a focus of interaction among area public school personnel, West College of Education faculty, and clinical teachers.

**Clinical Teaching Schedules for Growth of Responsibilities**

**Schedule for Growth of Responsibilities in Clinical Teaching: Two, 7-Week Placements**

While the cooperating teacher must retain primary responsibility for the classroom operation, including final instructional decisions, initiating a clinical teacher into the program should not be difficult if it is planned as a gradual process.

The following schedule is recommended as a guideline. Clinical teachers will vary in terms of personal and professional characteristics; i.e., poise, academic background, maturity, and motivation. Clinical teachers and cooperating teachers may decide to vary the schedule to match the clinical teacher’s ability to take on additional responsibilities.

Suggested clinical teaching schedules for different programs are provided in Appendix B.

**Clinical Teacher Role**

Clinical teachers are apprentices in the profession of teaching. Clinical teaching is a time to explore and learn about one’s personal teaching style. Teaching is a complex task with many demands. No course work or observation ever fully prepares the clinical teacher for the many demands made on the professional educator; however, the clinical teacher’s course work and observation should provide guidelines, knowledge, attitudes, and beginning skills to launch a teaching career. Clinical teachers are expected to demonstrate effective planning, teaching, and communication skills. The clinical teaching experience is the cultivating ground for developing and demonstrating professional relationships.

**Clinical Teacher Responsibilities**

- Realize that clinical teaching will be more time-consuming than the 6 or 8 hours of time in school. Arrange life to allow clinical teaching to be of major importance during this semester.
- Be on time and prepared for each day. If late or absent, you must notify, as soon as possible, both the cooperating teacher and the university supervisor. All absences will be made up at the end of clinical teaching. Please make plans to ensure that you are consistently on time.
- Become knowledgeable about building, schedules, policies, and established procedures. Learn from every experience and contact with other teachers, administrators, paraprofessionals, students, and parents.
- Be aware of cooperating teacher’s plans for seating, routine activities, changing classes and groups, grading, managing, teaching, and assessing student learning.
- Submit lesson plans on time. Reflect after teaching each lesson; discuss ideas with the cooperating teacher and the university supervisor via face-to-face interaction, e-mail, journal, or Desire2Learn (D2L).
- Perform any clerical, tutorial, supportive, and instructional activities that are requested by the cooperating teacher or that are appropriate to do in the absence of the teacher.
- Plan and implement lessons that follow the researched best practices whether for a small or a
large group. This includes reflection to determine that objectives are met or that will dictate the next steps in instruction.

- Use conferences with cooperating teacher and university supervisor to share, plan, reflect, etc. Be open to suggestions and input.
- Recognize and modify personal behavior and attitude when planning work with individual students, teachers, parents, and others.
- Successful completion and submission of the Midwestern Impact on Student Learning (MISL).
- Use student records to facilitate growth and development while respecting confidentiality. It is imperative to request confidentiality.
- Participate in university seminars and professional meetings.
- Register for the appropriate TExES exams. Upon passing the TExES tests, application for certification is made online through the State Board for Educator Certification website (http://www.tea.state.tx.us).

**Clinical Teaching Tips and Suggestions**

- Be prepared to take on increasing responsibilities in the classroom.
- Be flexible and eager. Ask appropriate questions; jot down things to ask at conference time.
- Keep a sense of humor.
- Involve all students, including those not volunteering.
- Accent the group idea – “we” not “I.” Read that part aloud “for us” not “for me.”
- Move about the room while talking or while students are working.
- Dress and act professionally. Follow effective practices of health and hygiene.
- Ensure that all students learn Standard English.
- Avoid being involved in gossip.
- Communicate high expectations and personal interest to each student regarding academic progress.
- Plan so that pupils are active. Have them discuss, answer, and ask questions, perform the demonstrations, and make decisions. Don’t do it all! Engage all students in active learning.
- Learn from mistakes; mistakes give the clinical teacher feedback on what the clinical teacher needs to improve. Use the mistakes as a foundation for growth.
- Be aware of rules, regulations, policies, curriculum, and facilities of the school. Follow rules, policies, and procedures of the school. Get a copy of and study district curriculum maps.
- Become familiar with the facilities of the school.
- Cooperate with school personnel, particularly with the cooperating teacher and principal.
- Plan short and long-term (daily, weekly, or unit) lesson plans, implement and reflect on the success in planning, teaching, and assessing student learning.
- Participate in the routine teaching and extra-instructional activities of the cooperating teacher.

**Lesson Planning**

- Clinical teachers are required to keep lesson plans for each lesson. The specific format can be adapted, but should always include the objectives (TEKS), procedures, materials/resources, and assessment. Please see Clinical Experience Forms and Templates section.
- Clinical teachers’ lesson plans vary in detail but are usually more detailed than those of the cooperating teacher’s.
- The “substitute’s standard” is a good rule of thumb for lesson plans. Could a substitute (or
anyone else) teach the lesson from the lesson plans?

- Lesson plans will be required to be completed a week before the lesson so that the cooperating teacher and/or the university supervisor can review them with the clinical teacher and make suggestions.
- Student engagement is a key element in a good lesson. Student learning/success is the ultimate goal.
- Clinical teachers are required to successfully plan and implement a unit of study, and submit this Impact on Student Learning (ISL) as a major component of their clinical teaching experience.

**Relationship to Cooperating Teacher**

- The cooperating teacher has the final responsibility for the quality of instruction and learning environment.
- The clinical teacher will effectively establish communication with the cooperating teacher to learn about instructional techniques and assessment processes.
- The clinical teacher will strictly adhere to a policy of not discussing information about students with other teachers, students, friends, or relatives.
- Clinical teachers are responsible for knowing and following confidential policies of the school district. When clinical teachers are not clear about their responsibilities, the clinical teacher will have the responsibility to take the initiative in having it clarified. The clinical teacher will share needs and concerns with the cooperating teacher and university supervisor.
- The cooperating teacher has final responsibilities for the daily program and for the welfare of the pupils. It is expected that the cooperating teacher will allow more initiative and responsibility as the clinical teacher demonstrates increasing skill.
- The clinical teacher will perform all assigned tasks and be flexible in assumption of classroom responsibilities.
- The clinical teacher will keep the cooperating teacher informed of any problems or changes in classroom plans. He/she will also inform the cooperating teacher of any necessary/required absences.

**Relationship to the University Supervisor**

In establishing a relationship with the university supervisor, the clinical teacher will:

- Notify the university supervisor as soon as possible of problems with the clinical teaching situation or necessary absences.
- Immediately inform the university supervisor of changes in the schedule which might interfere with observation plans.

**Clinical Teaching Evaluation Procedures/Performance Grading**

The cooperating teacher and university supervisor evaluate the performance of the clinical teacher throughout the semester. All clinical teachers go through the following evaluation procedures:

1. **University Supervisor Observations.** Four evaluations will be made during the 14 weeks assignment and at least 2 evaluations for each 7 weeks assignment. After the evaluation is made, the university supervisor meets with the clinical teacher and cooperating teacher to discuss the lesson observed as well as the general progress of the clinical teacher.
2. **Cooperating Teacher Assessment of Progress.** The cooperating teacher meets at least weekly with the clinical teacher to evaluate progress in the attainment of the program objectives.
cooperating teacher may also use the Clinical Teaching Observation Form to provide feedback to the clinical teacher.

3. Mid-Point Checkup. The university supervisor, clinical teacher, and cooperating teacher should use a three-step evaluation process mid-way through the clinical teaching experience to outline areas of strength as well as areas where improvement is needed. This conference should be used to set goals for the rest of the clinical teaching experience. If difficulties have arisen in the clinical teaching performance that are severe enough to warrant concern about successful completion of clinical teaching, they must be addressed and documented at this time.

4. Final Evaluation. This evaluation constitutes the final report on the performance of the clinical teacher. This three-step evaluation process for every Final Evaluation enhances communications:
   (a) Each participant completes a Final Evaluation form and makes two copies. The clinical teacher completes a Final Evaluation form which reflects his or her own estimate of strengths as well as areas for improvement. The university supervisor and the cooperating teacher complete forms, too.
   (b) At the three-way conference each person’s Final Evaluation form is shared with the other two participants. If there are differences in perceptions, the item(s) should be thoroughly discussed.
   (c) The university supervisor, taking into consideration the perceptions of the cooperating teacher and the clinical teacher, will complete the official Final Evaluation form. The university supervisor will make copies of the official Final Evaluation form for all participants. The university supervisor will file the signed originals in the West College of Education office. The clinical teacher may choose to submit copies to the placement office. The clinical teacher may also request placement office recommendation forms from the university supervisor, the cooperating teacher, and the principal.

5. Grading
   • Grading of clinical teaching is a cumulative process based on many factors. Although classroom performance is the primary factor, other issues such as attitude, professionalism, perceived strengths, and areas of weakness are also important.
   • Successful completion of the Midwestern Impact on Student Learning (MISL) is required before final grade for clinical teaching is submitted.
   • Although the cooperating teacher recommends a grade on the final evaluation, the university supervisor is responsible for assigning the final grade.

The grade of A indicates excellent work in clinical teaching. The clinical teacher:
   o Consistently demonstrates exemplary skills in planning and implementation.
   o Demonstrates creativity and resourcefulness of a high quality when planning and implementing lessons.
   o Demonstrates many professional capacities, including the ability to self-evaluate and correct.
   o Maintains excellent attendance.
   o When compared to other teachers, compares favorably with teachers who have several years of experience.

The grade of B indicates good work in all areas of student teaching. The clinical teacher:
   o Has demonstrated solid planning and implementation with good use of resources.
   o Accepts constructive criticism and works to improve in areas of need.
o When compared to other teachers, gives evidence of being a solid beginning teacher with the ability to grow professionally with guidance. The grade of C indicates that the clinical teacher performance was weak in one or more areas.
o Areas for improvement were observed and communicated to the clinical teacher, and although the clinical teacher worked toward resolution of the problems, the clinical teacher’s problems were not completely resolved.
o Compared to other teachers, this clinical teacher may need additional help before being a competent classroom teacher.

Grades of D or F mean that problems in clinical teaching were severe enough that the clinical teacher will not be recommended for certification.

Clinical teachers should be informed at midpoint if their performance to that point has the potential of being graded a C or lower. The Director of Certification and Compliance should also be informed at that time of any clinical teachers that may earn a C or lower. Clinical teachers who earn a C in clinical teaching are recommended for certification.

Please note: the final grade will be lowered for repeated absences.

6. Summary of Evaluation Cycle
   - Pre-Conference – introductions, review process, reason and purpose of observations, communicate with clinical teacher and cooperating teacher;
   - Observations – university supervisor completes formal observations using observation forms and provides feedback throughout clinical teaching period; cooperating teacher conducts observations and provides feedback throughout clinical teaching;
   - Analysis and Planning – university supervisor, cooperating teacher, and clinical teacher analyze observation data providing evidence supporting clinical teacher’s strengths and weaknesses; complete evaluation forms to frame post conference;
   - Post-Conference – university supervisor, cooperating teacher, and clinical teacher collaborate to discuss strengths, weaknesses, and future goals for success; collect clinical teaching evaluation forms;
   - Evaluation – university supervisor evaluates all data/evidence and makes final decision on clinical teaching grade; completes all online evaluation information (Tk20 and Banner); returns all appropriate paperwork to West College of Education; communicates final grade to clinical teacher now or during post-conference.

**Clinical Teacher Candidate Professional Conduct**
- The clinical teacher’s schedule will match that of the cooperating teacher(s). The cooperating teacher’s reporting time and leaving time set the minimum schedule. If the clinical teacher has questions, consult with the university supervisor immediately.
- The clinical teacher will attend faculty meetings, Professional Learning Community (PLC) meetings, and in-service days with the teacher.
- The clinical teacher will keep privileged information regarding students and school confidential. Questions about handling privileged information should be addressed with the university supervisor or cooperating teacher.
The clinical teacher will strive for perfect attendance. All absences will be made up at the end of clinical teaching due to state law.

Co-Teaching Model/Strategies

- One Teach, One Observe — One teacher has primary instructional responsibility while the other gathers specific observational information on students or the (instructing) teacher. The key to this strategy is to have a focus for the observation.
- One Teach, One Assist — One teacher has primary instructional responsibility while the other teacher assists students with their work, monitors behaviors, or corrects assignments.
- Station Teaching — the co-teaching pair divide the instructional content into parts and the students into groups. Groups spend a designated amount of time at each station. Often an independent station will be used.
- Parallel Teaching — each teacher instructs half of the students. The two teachers are addressing the same instructional material and present the lesson using the same teaching strategy. The greatest benefit is the reduction of student to teacher ratio.
- Supplemental Teaching — This strategy allows one teacher to work with students at their expected grade level, while the co-teacher works with those students who need the information and/or materials extended or remediated.
- Alternative/Differentiated Teaching — Alternative teaching strategies provide two different approaches to teaching the same information. The learning outcome is the same for all students, however the instructional methodology is different.
- Team Teaching — well-planned, team taught lessons exhibit an invisible flow of instruction with no prescribed division of authority. Using a team-teaching strategy, both teachers are actively involved in the lesson. From a student’s perspective, there is no clearly defined leader, as both teachers share the instruction, are free to interject information, and available to assist students and answer questions. (Adapted from Cook & Friend (1995))

Midwestern Impact on Student Learning Portfolio (MISL)

Successful completion and submission of a Midwestern Impact on Student Learning (MISL) portfolio is required during the first six weeks of clinical teaching. Clinical teachers are required to plan, implement, and assess student learning within a unit of study.

The Midwestern Impact on Student Learning (MISL) measures content knowledge, pedagogical knowledge, and effect on student learning in the following areas/domains: Learning Environments; Individual Development and Diversity; Collaboration; Planning Process and Content; Assessment; Strategies and Methods; Reflection; Professional Development; and Communication.

Each of the 10 areas is scored with one of 4 ratings: Exemplary 4, Competent 3, Needs Improvement 2, and Unsatisfactory 1. An overall score of 20 (meets expectations) is required for successful completion of clinical teaching for all clinical teachers.

The MISL is a record of the candidates’ ability to carefully consider all contextual factors that influence instruction and to then use those factors to plan and design a unit of instruction, including an assessment plan that can demonstrate changes in student knowledge, skills, or dispositions resulting from instruction. The MISL includes both reflexive (description of instructional decision making during the unit) and reflective components that encourage candidates to plan instruction strategically and to
approach teaching in a purposeful, thoughtful, and methodical manner.

Successful clinical teachers support learning by designing a MISL that employs a range of strategies and builds on students’ strengths, needs, and prior experiences. Through this performance assessment, clinical teachers provide credible evidence of their ability to facilitate learning by meeting the MISL standards/domains listed above.

**Professional Development: Clinical Teachers**
Training for clinical teachers is delivered in person and electronically through Tk20.

**Mental Health, Substance Abuse, and Youth Suicide Training**
Effective December 27, 2016, 19 TAC §228.30(c)(3) requires educator preparation programs to provide instruction regarding mental health, substance abuse, and youth suicide to candidates seeking initial certification in any certification class. The mental health instruction must include effective strategies for teaching and intervening with students with mental or emotional disorders, including de-escalation techniques and positive behavioral interventions and supports. Mental health, substance abuse, and youth suicide training will be delivered in person during clinical teaching orientation. (cited from [http://tea.texas.gov/Texas_Educators/Preparation_and_Continuing_Education/Program_Provider_Resources/](http://tea.texas.gov/Texas_Educators/Preparation_and_Continuing_Education/Program_Provider_Resources/))

**SCHOOL-BASED CLINICAL EDUCATORS**

**Mentor Teacher Expectations: Professional Blocks**

**Mentor Teacher Roles and Responsibilities**

Qualifications/Credentials
- Professional licensure/certification in the specified content area
- A minimum of 3 years teaching experience in the appropriate certification area
- Have demonstrated success in classroom teaching

Roles and Responsibilities
- Planning
- Collaborate with teacher candidates to plan lessons and schedule learning activities for successful achievement of the expected outcomes.
- Plan and project a long-range plan for gradual increase of classroom responsibilities and teaching.
- Model planning instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.
- Model and mentor the planning of a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Teaching
- Model and mentor how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.
• Explain rationale for teaching decisions based on individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.
• Engage teacher candidates in opportunities of working with individuals, small groups, and whole class.
• Support teacher candidates in achieving the expected outcomes by providing constructive feedback about their teaching.
• Support and mentor teacher candidates in understanding how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and design and implement developmentally appropriate and challenging learning experiences.

Assessment
• Monitor and evaluate performance of teacher candidates throughout the semester.
• Hold regular conferences with teacher candidates to provide specific feedback on performance, strengths, and areas for improvement.
• Assist and support the methods faculty in assessing the effectiveness of the PDS program through feedback.
• Model and mentor the use of multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.

Learning Environment
• Model and mentor teacher candidates in creating environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.
• Ensure teacher candidates have technology-enhanced learning opportunities.

Cooperating Teacher Expectations: Clinical Teaching

Cooperating Teacher Roles and Responsibilities
Throughout the clinical teaching experience, the cooperating teacher is the primary agent in helping the clinical teacher to grow professionally and to gain competence. The cooperating teacher is responsible for assisting the clinical teacher to meet the objectives of clinical teaching. Clinical teachers are still in training; most of the mistakes they make can be handled as “things to learn.” Please give them time, space, and guidance to learn the very difficult task of teaching.

Getting Started:
To help get started with a clinical teacher, the cooperating teacher should:
• Become familiar with the clinical teacher’s background by reviewing his/her credentials and through conferences with him/her and the university supervisor.
• Create an atmosphere of acceptance of the clinical teacher by the pupils, their parents, and other faculty and staff. Treat the clinical teacher as a professional person. Introduce the clinical teacher to the class on the first day. Introduce them to the faculty at the first faculty meeting she/he attends.
• Provide the clinical teacher with information concerning curriculum requirements, room
management, discipline policies and procedures, class schedules, and other class and school policies.

- Acquaint the clinical teacher with the resource personnel of the school.
- Acquaint the clinical teacher with instructional materials, supplies, and equipment available.
- Provide a place for the clinical teacher’s personal belongings. Take the clinical teacher on a tour of the building - including where to park, lunch prices, location of the workroom, lounge, and restrooms.

Planning
In assisting with planning, the cooperating teacher should:

- Project a long-range plan with the clinical teacher for gradual increase of classroom responsibilities and teaching. Plan assignments and responsibilities with the clinical teacher. Be supportive of his/her ideas.
- Orient the clinical teacher to expectations in planning. Share the lesson planning process. Begin with small specific tasks for the clinical teacher to accomplish. Gradually allow more freedom for planning and more responsibility.
- Require the clinical teacher to write a lesson plan for each lesson. The specific format can be adapted but should always include the objectives (TEKS) procedures (descriptions of the steps of the lesson), materials and resources needed for the lesson, and evaluations. “Page 245 Verbs” is never a lesson plan for a clinical teacher. The amount of detail in the clinical teacher’s lesson plan can vary. It is expected that the clinical teachers’ lesson plans will be more detailed than the cooperating teacher’s.
- Suggest the “substitute’s standard” as a good rule of thumb for lesson plans. Could a substitute (or anyone else) teach the lesson from the lesson plans?
- Invite and encourage the clinical teacher to use his or her own ideas in planning a lesson, but please always check plans and make suggestions.
- Require the clinical teacher to have plans available several days in advance for the cooperating teacher to check. As the clinical teacher has more advance time for preparation and gains skill, plans should be available on Thursday or Friday for the following week.
- Set up a regular time for planning with and assessing the clinical teacher. Weekly planning meetings are required.
- Encourage the clinical teacher to use a variety of instructional strategies. Please be flexible in allowing them to “try their wings” with innovative techniques.
- Support the clinical teacher in the development, implementation, and submission of a successful Midwestern Impact on Student Learning (MISL).

Communication
Communication is a vital part of any learning environment. Therefore, the cooperating teacher should:

- Encourage the clinical teacher to ask questions. Answer questions with both how and why the cooperating teacher works as he or she does. Letting a clinical teacher inside the cooperating teacher’s decision-making process is important.
- Give positive feedback even for small things. When the clinical teacher makes mistakes (as all teachers do), suggest and discuss alternatives.
- Reserve constructive criticism for private conferences, but do have high, reasonable expectations for this “learner” and let the clinical teacher know what they are.
• Understand that clinical teachers are beginners. They will need to gain confidence and competence through appropriate encouragement and support.
• Guide the clinical teacher through the process of reflecting on his or her decisions and actions.

Evaluation and Conferencing with the Clinical Teacher
Assessing the work of the clinical teacher is an important step in the growth plan. To support the growth of the skills of the clinical teacher, the cooperating teacher should:
• Help the clinical teacher know what to observe as the cooperating teacher teaches a lesson and a series of lessons.
• Provide continual feedback to the clinical teacher. Provide both oral and written feedback frequently. Be specific in reporting both strengths and areas for improvement. Discuss alternative ways of handling situations.
• Use the Clinical Teaching Observation Record for feedback on clinical teacher lessons. The cooperating teacher may choose to use it as an outline for discussion or in some more formal way. It is modeled after the Texas Teacher Evaluation and Support System (T-TESS).
• Conduct an evaluation process at the midpoint of clinical teaching. A *three-step evaluation process is essential among the clinical teacher, the cooperating teacher, and the university supervisor. Use the evaluation form to point out areas of strength and areas for work during the rest of clinical teaching. If a clinical teacher is having serious problems, this is the time to alert the clinical teacher, the university supervisor, and possibly university staff.
• Use a three-step evaluation process and the evaluation form for the final evaluation during the last week of clinical teaching.
• Be sure to give a copy of the cooperating teacher’s Final Evaluation form to the clinical teacher and also to the university supervisor. If the school district also wishes to have the final evaluation on file, make another copy for the school district.

Communicating with the University Supervisor
It is extremely important to be honest and forthright with the University Supervisor. Concerns or problems should not be a surprise toward the end of the semester. Cooperation toward a common goal usually helps. Any attendance problems must be reported immediately. Ideally, the clinical teacher will have perfect attendance. The only excused absences are for illness, illness in the immediate family, or the funeral of an immediate family member. The clinical teacher should notify the cooperating teacher and university supervisor immediately upon realizing that an absence will occur. Make-up days will be assigned for unexcused absences.
• Introduce the university supervisor to the cooperating teacher’s pupils and to other members of the staff. Arrange opportunities for the supervisor to talk with the clinical teacher and/or with the cooperating teacher. The cooperating teacher knows his or her schedule best so the cooperating teacher should make suggestions about convenient times for the meetings.
• Evaluate with the university supervisor, the clinical teacher’s performance at the midpoint of the clinical teaching period. Confer with the university supervisor about completion of the final evaluation. The cooperating teacher will recommend a final grade, but the university supervisor has final responsibility and decision for the grade.
• Report promptly to the university supervisor any special problems, concerns, conflicts, or questions that arise. The university supervisor will work towards solutions with the
cooperating teacher, the building principal, the central office, and the Director of Certification and Compliance.

*Three Step Evaluation Process – 1) Clinical teacher defines strengths and areas for improvement based upon self-reflection; 2) University supervisor and cooperating teacher use observation data and evidence to define strengths and weaknesses; 3) Clinical teacher, university supervisor, and cooperating teacher define goals for building on strengths and improving weaknesses.

**WCOE Clinical Teaching Evaluation**

WCOE believes in evaluating the entire clinical teaching experience. To that end, clinical teachers are asked to evaluate both the cooperating teacher and the university supervisor. The objective of these evaluations is not to determine the quality of teaching occurring in the classroom. The purpose is to provide the EPP with information about feedback, support, and opportunities for candidate growth/experiences. Anonymous information gathered from both the cooperating teacher evaluation and university supervisor evaluation will be reviewed, in accordance with CAEP guidelines, as part of the cooperating teacher and university supervisor selection process. The Teacher Education Committee (TEC) serves as a recommendation group to ensure our candidates have the best experiences possible and will use information from many sources to make that determination.

**Cooperating Teacher Training**

Training for cooperating teachers is conducted virtually and verified through Tk20.

**University Supervisor Expectations**

**University Supervisor Roles and Responsibilities**

The university supervisor serves as liaison between the university, clinical teacher, and school district, educators, and administrators. The most important function of the university supervisor is to ensure that the clinical teacher and the cooperating teacher are communicating with each other. Poor clinical teaching experiences are typically those in which the communication is lacking.

**Off to a Good Start**

In order for the clinical teaching experience to be successful, the university supervisor should:

- Make a visit to the school during the first week of assignment. Despite every effort to keep people informed, sometimes a clinical teacher is assigned by the principal and the cooperating teacher does not know that the clinical teacher is coming. Advance work can prevent some discomfort for everyone.
- Arrange a meeting with each cooperating teacher during the first week so that the university supervisor can answer questions, explain policies, and hand out the clinical teaching handbook and evaluation forms. Check to see that the principal also has a clinical teaching handbook.
- Become familiar with and respect school policies, curricula, and procedures.
- Establish guidelines for clinical teachers in accordance with district and campus philosophy in consultation with the principal. Provide the principal, cooperating teacher, and clinical teacher with appropriate telephone numbers and email addresses for contacting the university supervisor.
- Be aware of clinical teacher’s attendance and enforce the guidelines. The clinical teacher should contact both the school and the university supervisor before the beginning of the
school day if the clinical teacher will not be present at school. All absences will be documented by the university supervisor and are considered unexcused; and therefore, will be made up at the end of clinical teaching.

Planning Comes First
Planning for learning is vital. To make sure that this important process is completed correctly, the university supervisor should:

- Make sure that the clinical teacher and cooperating teacher have a plan for gradual assumption of classroom roles and responsibilities. A project calendar for assumption of lessons and classes should be developed the first week.
- Expect the clinical teachers to write lesson plans for each lesson. The specific format can be adapted but should always include the objectives (TEKS), procedure (description of the steps of the lesson), materials and resources needed for the lesson, and evaluation. “Page 245 Verbs” is never a lesson plan.
- The amount of detail in the clinical teacher’s lesson plan can vary. At first, they should be more complete. As the clinical teaching experience proceeds, the detail may diminish somewhat. If a clinical teacher is experiencing difficulty, the first suggestion is to increase the detail of lesson planning even to scripting lessons. Clinical teacher lesson plans will be more detailed than the cooperating teacher’s.
- Use the “substitute’s standard” as a good rule of thumb for lesson plans. Could a substitute teacher (or anyone else) teach the lesson plans?
- Make sure that lesson plans are available for the university supervisor during visitations and observations. Require that lesson plans be submitted to the university supervisor on a weekly basis.
- Support and guide the clinical teacher in the development, implementation and submission of a successful Midwestern Impact on Student Learning (MISL).

Conferencing with Clinical Teachers
Visitation and Observation
In order to make the clinical teacher’s experience the best it can be, the university supervisor should:

- Work with the cooperating teacher and clinical teacher to develop an appropriate observation schedule. Give a telephone number and email address to the cooperating teacher and clinical teacher so the university supervisor can be informed of changes or special events.
- For a 14-week assignment, conduct, document, and submit to the director of certification at least four formal observations using the clinical teaching observation form (at the end of the semester). For clinical teachers on a split assignment (two 7-week assignments), conduct at least two formal observations per assignment. These should also be documented on the clinical teaching observation form and submitted to the certification officer at the end of the semester. Take time during each visit to talk with the cooperating teacher and the clinical teacher concerning progress or problems. The university supervisor should schedule a feedback session with the clinical teacher and/or the cooperating teacher immediately, or as soon as possible, after each observation.
• Set up a three-way conference among the clinical teacher, the cooperating teacher, and the university supervisor at the halfway mark in clinical teaching and at the end of clinical teaching. A mid-term is not necessary on 6-week assignments. The mid-term evaluation conference should provide a focus for the clinical teacher during the remainder of the time the clinical teacher will be in the school.

**University Supervisor Training**
Training for university supervisors is delivered in person and virtually and verified through Tk20.

**Supervising Principal Expectations**

**Supervising Principals Roles and Responsibilities**
The supervising principal provides leadership for the effective coordination of field experiences. As the instructional leader of the campus, the principal will work in cooperation with the university supervisor and cooperating teacher in order to ensure the success of the clinical teacher’s role in the classroom. To ensure this success, the supervising principal should:

1. Select classroom cooperating teacher.
2. Provide the clinical teacher with a thorough briefing on the policy and procedures of the school through initial conferences and distribution of materials.
3. Welcome the clinical teacher and introduce him or her to staff members.
4. Act as a resource for the classroom cooperating teacher and clinical teacher.
5. Grant permission for the university supervisor and others connected with the program to visit the classroom.
6. Arrange and schedule for clinical teacher observations in subject areas and grade levels other than the assignment when needed.
7. Observe the clinical teacher as time permits during the semester.
8. Ensure that the clinical teacher is accepted as a fellow professional in training and that the clinical teacher is provided an opportunity to view the total school program, including faculty meetings, P.T.A., etc.
9. If time permits, offer the clinical teacher an exit interview during which a discussion of the clinical teacher’s experience and guidance for future growth are provided.

**CLINICAL EXPERIENCES: PLACEMENTS AND PROCEDURES**

**Clinical Experience Introduction**
Clinical Experiences at the WCOE, including both initial clinical experiences (e.g., classroom observations) and clinical teaching, are an essential part of the professional preparation program. Clinical experiences vary across many WCOE undergraduate programs and are designed and implemented through collaboration with school district and community partners. WCOE teacher candidates gain essential knowledge, skills, and dispositions through observations and teaching opportunities in a wide variety of diverse settings (e.g., urban/rural, SES, special needs, race/ethnicity).
CERTIFICATION EXAM TESTING POLICY

The following steps are required before a student is permitted to take certification exams.

1. Take initial practice exam-Certify Teacher.
2. If the student scores less than 80% in each domain and competency, complete study tracker program in Certify Teacher. Once study tracker program is completed, retake practice exam.
3. If the second practice exam is less than 80% in each domain and competency, repeat the process until 80% is reached in each domain and competency.
4. Students must have at least 10 hours of study time total at the end of the practice exam process. If 10 hours is not reached through the practice exams process, then additional study hours must be completed to reach the minimum requirement of 10 hours in Certify Teacher.
5. Once students met the requirements above and would like to be released for testing, please complete the following form.

Upon completion of the form, you will be notified within 24-48 hours of your ability to schedule your certification exam. Please view the following document for assistance creating your testing account, registering for your exam, and scheduling your exam.

For students who are not successful in passing their certification exams, the following requirements must be met before the student will be allowed to repeat the exam.

1. Complete a practice exam-Certify Teacher.
2. If the student scores less than 80% in each domain and competency, complete study tracker program in Certify Teacher. Once study tracker program is completed, retake practice exam.
3. If the second practice exam is less than 80% in each domain and competency, repeat the process until 80% is reached in each domain and competency.
4. Students must have at least 10 hours of study time total at the end of the practice exam process. If 10 hours is not reached through the practice exams process, then additional study hours must be completed to reach the minimum requirement of 10 hours in Certify Teacher.
5. Work with an assigned professor on test readiness and exam preparation. The Certification Officer will assign a professor to work with the student. Please email Kayla Meaders at kayla.meaders@msutexas.edu for instructions on this step of the protocol. The assigned professor will decide what course of action you must complete before letting the Certification Officer know that you are ready to retest.
6. After completing steps 1-5, please contact Kayla Meaders at kayla.meaders@msutexas.edu to request access to take retake certification exams.

MSU WCOE POLICY FOR RETURNING FINISHERS AND TEST REPEATERS

Undergraduate
Initial Certification Returners

If a teaching candidate is seeking test approval for an initial certification and the standards and/or test has changed since the candidate completed the teaching program at MSU, the candidate will be required to:
• Repeat the WCOE certification exam testing policy
• Be assigned to and work with MSU College of Education Faculty Testing Mentor(s)
• Complete up to an additional 15 hours of coursework per exam from MSU and/or MSU training modules approved by the Faculty Testing Mentor and the Certification Officer before test approval

If a teaching candidate has returned to MSU after a period of five or more years following the academic year of completion and the candidate is seeking test or retest approval for initial certification the candidate will be required to:

• Repeat the WCOE certification exam testing policy
• Be assigned to and work with MSU College of Education Faculty Testing Mentor(s))
• Complete up to an additional 15 hours of coursework per exam from MSU and/or MSU training modules approved by the Faculty Testing Mentor and the Certification before test approval
Matrix of Depth and Complexity of Clinical Experiences: Continuum of Field Experiences

### Methods Courses

- **Small/whole-group instruction, teacher assistant**

  - **Type of Clinical Experience**: Formal Teaching Observations/Conferences/Reflection (minimum required)
  - **Specific objective(s) for each of the listed clinical experiences**: Teacher candidates will develop and implement content-specific lessons which are taught and observed by the instructor or faculty member of record.
  - **Specific objective(s) for each of the listed clinical experiences**: Teacher candidates will assist classroom teacher; observe teaching and lead small group teaching; support individual student’s learning in the classroom; teach additional lessons if classroom teacher requests.
  - **Specific objective(s) for each of the listed clinical experiences**: Teacher candidate will observe, plan, and implement content-specific instructional methods/assessments. Specifically, teacher candidate will:
    - Describe learning and thinking, understand the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.
    - Plan, understand and develop curriculum and use effective instructional planning skills to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.
    - Assess students’ learning and will be able to use assessment data to reflect on their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making, understand how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and design and implement developmentally appropriate and challenging learning experiences.
    - Implement effective teaching strategies to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving.

  - **Assessments Aligned w/ Clinical Experience Objectives/Clock Hours**: 36 clock hours
  - **Required use of Technology in the Clinical Experience**: Technology integrated to differentiate instruction
  - **Use of Technology Tool/Resources**: (e.g., Plickers, Videos, iPads, Google Apps/Google Classroom, Clickers, CBRs, Calculators, Kahoot, Web 2.0)
  - **Professional development workshop on instructional Technology through PDS ISD technology personnel**
Name and Number of Clinical Experience | Type of Clinical Experience | Specific objective(s) for each of the listed clinical experiences | Assessments Aligned w/ Clinical Experience Objectives/Clock Hours | Required use of Technology in the Clinical Experience
--- | --- | --- | --- | ---
Reading Courses | Small group teaching, tutoring | - Incorporate national and state standards and technology applications to create environments that support individual and collaborative learning and that encourage positive social interaction, active engagement in learning, and self-motivation.
- Utilize various teaching/learning strategies that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.
- Develop learning activities that involve the infusion of technology including content-specific technologies to motivate, support, and spur new learning.
- Analyze and understand individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Small group teaching, tutoring | 1 Formal Tutoring Observations/Reflections (minimum required)
Teacher candidate will plan, implement and conduct reading intervention in small group teaching and individual tutoring formats based on formative assessment.
- Teacher candidate will demonstrate and apply knowledge of informal assessment measures and will select and use various assessment instruments appropriate for the children they are tutoring.
- Teacher candidate will demonstrate and apply knowledge of how to use a child’s literacy strengths to develop a child’s literacy needs as they plan and carry out appropriate literacy lessons for the children they are tutoring.
- Teacher candidate will demonstrate and apply knowledge of reading and writing processes and will select appropriate literacy methods, strategies, and materials for the children they are tutoring.
- Teacher candidate will analyze and interpret informal diagnostic data in order to develop tutoring lessons appropriate for the strengths and needs of the children they are tutoring.
- Teacher candidate will demonstrate and apply knowledge of how to document and monitor children’s literacy progress.
- Teacher candidate will analyze and adjust their own instruction as needed to assist children to develop their literacy abilities.
- Teacher candidate will demonstrate and apply knowledge of a variety of reading teaching methods, reading and writing strategies, and materials to assist children with reading and writing.
- Teacher candidate will synthesize diagnostic data obtained from informal assessments, lesson plans, and their lesson reflections in a case study presentation.

| EDUC 4166 (Clinical Teaching)         | Clinical Teaching           | Four Formal Teaching Observations (2 each - week period-minimum required)  
- The clinical teacher will conduct a pre-assessment of student knowledge on multiple objectives, design/implement a unit of instruction to assess learning of objective, conduct a post-assessment, and reflect on quality of lesson delivery.  
- The clinical teacher will consistently demonstrate exemplary knowledge and skills in planning, assessment, and instruction.  
- The clinical teacher will demonstrate creativity and resourcefulness of high quality when planning and implementing instruction.  
- The clinical teacher will demonstrate many professional capacities, including the ability to self-evaluate and correct.  
- The clinical teacher will develop deeper insights and understanding of the mental, emotional, social, and physical development of the students.  
- The clinical teacher will select, organize, and present learning experiences in a variety of ways.  
- The clinical teacher will respond to the abilities, needs, interests, aptitudes, and goals of learners so that effective learning experiences can be provided.  
- The clinical teacher will develop a professional interest and a personal enthusiasm for teaching.  
- The clinical teacher will implement educational philosophy and theory in daily classroom teaching situations.  
- The clinical teacher will gain insight into current research and its application to education. | Clock Hours 455

Technology Tool/Resources: (e.g., interactive whiteboards, Apple Air Server, Plickers, Videos, iPads, Google apps, Clickers, CBRs, Calculators, educational apps, Kahoot, Web 2.0, Class Dojo, blogs-SeeSaw, presentation software, etc.) |
Technology-Based Collaborations

WCOE faculty incorporate and model the use of technology as an instructional tool in foundation and professional block courses. In addition, all initial teaching candidates receive advanced training in the use of technology as an instructional tool in ETEC 4003 Advanced Technology Integration. This course is taken simultaneously with professional Block A (EDUC 4033/4043/4053 or 4063/4073/4083) or Block B (READ 4233/4243 or EDUC 4113). ETEC 4003 prepares teacher candidates in professional blocks to use suites of digital media and communication tools that support the development of technological pedagogical content knowledge. Teacher candidates develop and implement learning experiences during the professional block courses that incorporate new technologies that are developed in collaboration with methods courses instructors, cooperating teachers, and/or other instructors. Field based clinical experiences are aligned with International Society of Technology in Education (ISTE) National Education Standards for Teachers (NETS-T) and Students (NETS-S) standards. In collaboration with WFISD PDS instructional technology support, all teacher candidates receive instructional technology professional development during professional Block A or Block B.

Certification Office Roles and Responsibilities

Procedures for Placements: Clinical Teaching Candidates

The WCOE certification office works closely with partner school districts and administrative personnel to coordinate candidate diverse placements for field experiences, clinical teaching, and internships. The WCOE certification office serves as a liaison to coordinate all initial teacher candidates’ placements in Wichita County and the surrounding areas. They work with human resource staff, the principal, assistant principal, and the mentor office to provide field experiences in the professional education block courses and clinical teaching. The partners ensure that candidates receive a wide range of experience working in diverse locations with diverse populations and a variety of grade levels related to their certification area.

<tbody>
<tr>
<td>Lesson Plan Topic:</td>
<td>Date:</td>
</tr>
</tbody>
</table>

**TEKS-Based Instructional Plan**

**TEKS** (List only the TEKS that apply to this particular lesson.)

**Objectives/Outcomes** (number each objective/outcome and word them to indicate how each is measurable):

**Assessment Strategies:**

How do you plan to assess how well the students have achieved the learning/objectives in this lesson?

<table>
<thead>
<tr>
<th>Learning Objectives/Outcome (copy from above each objective/outcome)</th>
<th>Assessment (indicate pre, formative, summative, or post)</th>
<th>Format of Assessment (test, observational checklist, project, journal entry, etc.)</th>
<th>Rationale for Assessments</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**What instructional materials, resources, and technology did you use in the lesson or to extend the lesson?**

**Instructional Delivery:**

Describe the procedure fully giving step-by-step sequence of how you will deliver the lesson. Be sure to keep in mind and address the following:

1. Questions and concerns listed in the directions given to you by your instructor
2. Setting purposes (“Today, we will be... I want you to... because you will...”)
3. Method(s) for engaging students in the lesson
4. Any questions asked during the lesson should be in bold
5. Higher order thinking reflected in questions.
7. Grouping: when and how
8. Instruction that addresses learners’ needs (ELLs, Special Education, 504, Gifted, Struggling Learner)
9. Closure
## Lesson Plan Learning Reflection

**Lesson Plan Learning Reflection**

<table>
<thead>
<tr>
<th>Midwestern State University</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Mentor/Cooperating Teacher:</td>
<td>Date:</td>
</tr>
</tbody>
</table>

Complete the Learning Reflection shortly after the teaching of your lesson.

**General Reflection:**
Overall, how effective was this lesson? What is the basis for your judgement? (Objective attainment, effectiveness of lesson engagement, procedure, and assessment; use evidence to support your conclusions.)

**Future Planning**
What adjustments would you make the next time you teach this lesson? Why? (Use evidence to support your conclusions.)

**Collaboration:**
How did you collaborate with your Mentor/Cooperating Teacher while preparing for this lesson? Include any recommendations for content, instructional strategies, assessment, and any other information to the development of your lesson.

<tr>
<td>Collaboration</td>
<td>The description provided reflects the value in collaborating with other professionals to meet students learning objectives. The collaboration description gives specific examples of utilizing and working with colleagues planning instruction.</td>
<td>The description provided reflects collaborating with other professionals to meet students learning objectives. The collaboration description gives examples of discussing student needs but not using that discussion in planning instruction.</td>
<td>The description provided reflects little value in collaborating with other professionals to meet students learning objectives. The collaboration effort is not more than a discussion of general instructional strategies.</td>
<td>There is little to no description of collaboration efforts OR there is no attempt to collaborate with others. The instructional design was an individual effort.</td>
<td></td>
</tr>
<tr>
<td>Planning Process and Content</td>
<td>Unit outcomes are clearly and explicitly aligned with group and individual student needs and TEKS. (CCRS for middle/secondary). Unit outcomes involve higher order thinking skills.</td>
<td>Unit outcomes are aligned with group and individual student needs and TEKS. (CCRS for middle/secondary). Some unit outcomes involve higher order thinking skills.</td>
<td>Unit outcomes are aligned with group and individual student needs but are not appropriately aligned to TEKS. (CCRS for middle/secondary).</td>
<td>Unit outcomes are not aligned with group and individual student needs and/or TEKS. (CCRS for middle/secondary)</td>
<td></td>
</tr>
<tr>
<td>Assessment</td>
<td>Assessments appear valid and reliable and are clearly and explicitly aligned with student factors and unit outcomes. Pre and post assessments and formative measures of student progress were used. Multiple forms of assessment were used.</td>
<td>Assessments appear valid and reliable and appear to be aligned with certain student factors and unit outcomes. Pre and post assessments and formative measures of student progress were used.</td>
<td>Assessments appear to be aligned with certain student factors and unit outcomes. Pre and post assessments and at least one formative measure of student progress were used.</td>
<td>Assessments are not aligned with student factors and/or unit outcomes. Assessments do not appear to be valid and/or reliable measures of student learning.</td>
<td></td>
</tr>
<tr>
<td>Assessment Technology ISTE 2d</td>
<td>Formative/summative assessments are aligned with technology standards and provide a path to use resulting data to inform student learning.</td>
<td>Digital tools and resources are used in the formative/summative assessment of unit objectives and provide feedback to students but does not support student learning.</td>
<td>Digital tools and resources are used in the formative/summative assessment of unit objectives but do not provide feedback.</td>
<td>Digital tools and resources are not utilized in the formative/summative assessment of unit objectives.</td>
<td></td>
</tr>
<tr>
<td>Instructional Delivery/ Alignment of Lessons to Unit</td>
<td>All unit lessons are logically organized and aligned closely with unit outcomes. Activities promote active student engagement and the lessons activate higher order thinking. Lessons/strategies incorporate different methods across the entire unit.</td>
<td>3-4 lessons are logically organized and aligned with unit outcomes. Activities promote active student engagement and half the lessons activate higher order thinking. Lessons/strategies utilize 3-4 different methods used in lessons.</td>
<td>1-2 lessons are aligned with unit outcomes. Activities promote student engagement but do not activate higher order thinking. Lessons/strategies incorporate 1-2 different methods used in lessons.</td>
<td>Unit lessons are not aligned with unit outcomes and/or are disorganized. Activities do not promote active student engagement or higher order thinking. There is no variety of strategies and methods used across lessons.</td>
<td></td>
</tr>
<tr>
<td>Communication</td>
<td>Ideas are clear and fully developed using relevant details and logical explanation. Writing is organized, coherent, and correct (essentially error free).</td>
<td>Though ideas are clear, they lack adequate support. Writing is organized, coherent, and reasonably correct (punctuation, usage, spelling, or diction).</td>
<td>Ideas are either vague or very poorly supported. Writing is organized reasonably well, but exhibits many errors in punctuation, usage, spelling, or diction.</td>
<td>Ideas are vague and poorly supported. Writing is disorganized and exhibits excessive errors in punctuation, usage, spelling, or diction.</td>
<td></td>
</tr>

Indicate Evaluator’s Title (Circle): University Field Supervisor

The following clinical teacher evaluation form is divided into four domains as adopted by the State Board of Education. These domains are Planning, Instruction, Learning Environment, and Professional Practice and Responsibilities. The Dimensions within each domain ensure clinical teachers have the knowledge and skills to teach in Texas public schools. Please use this form as summative evaluation of the clinical teacher’s performance to date by checking the appropriate box. Use Not Applicable (NA) when the element has not been observed or is irrelevant to the particular setting/observation/evaluation. The included indicators are from the proficient level.

Scale: **Accomplished** *Proficient* Developing **Improvement Needed**

**Requires written “COMMENTS” specifying observed, shared or recorded evidence if scoring Improvement Needed or Distinguished.

*Proficient is the goal.

Dimension 1.1 Standards and Alignment Overall Rating:

Evidence/Comments:

<table>
<thead>
<tr>
<th>Dimension 1.2 Data and Assessment</th>
<th></th>
</tr>
</thead>
</table>
The teacher candidate uses formal and informal methods to measure student progress, then manages and analyzes student data to inform instruction.

| Dimension 1.2 Data and Assessment Overall Rating: |
| Evidence/ Comments: |

Dimension 1.3 Knowledge of Students
The teacher candidate ensures high levels of learning, social-emotional development and achievement for all students.

| Dimension 1.3 Knowledge of Students Overall Rating: |
| Evidence/ Comments: |

Dimension 1.4 Activities
The teacher candidate plans engaging, flexible lessons that encourage higher-order thinking, persistence, and achievement.

| Dimension 1.4 Standards and Alignment Overall Rating |
| Evidence/ Comments: |

Additional Evidence/ Comments for Domain 1 - Planning:

Domain 2- Instruction

| Dimension 2.1 Achieving Expectations |
| Evidence/ Comments: |

Dimension 2.2 Content Knowledge and Expertise
The teacher candidate uses content and pedagogical expertise to design and execute lessons aligned with state standards, related content and student needs.

The Teacher Candidate:
1. Conveys accurate content knowledge in two or more ways.
2. Integrates learning objectives with other disciplines.
3. Anticipates possible student misunderstandings.
4. Provides opportunities for students to use different types of thinking (e.g. analytical, practical, creative, and research-based)

Accurately reflects how the lesson fits within the structure of the discipline and the state standards.

Dimension 2.2 Content Knowledge and Expertise Overall Rating
Evidence/ Comments:

Dimension 2.3 Communication
The teacher candidate clearly and accurately communicates to support persistence, deeper learning, and effective effort.

The Teacher Candidate:
1. Establishes classroom practices that provide opportunities for most students to communicate effectively with the teacher and their peers.
2. Recognizes possible student misunderstandings and responds with an array of teaching techniques to clarify concepts.
3. Asks remember, understand and apply level questions that focus on the objective of the lesson and provoke discussion.
4. Provides explanations that are clear.
5. Uses verbal and written communication that is clear and correct.
6. Uses probing questions to clarify and elaborate learning.

Dimension 2.3 Communication Overall Rating:

Evidence/ Comments:

Dimension 2.4 Differentiation
The teacher candidate differentiates instruction, aligning methods, and techniques to diverse student needs.

The Teacher Candidate:
1. Adapts lessons to address individual needs of all students.
2. Regularly monitors the quality of student participation and performance.
3. Recognizes when students become confused or disengaged and responds to student learning or social/ emotional needs.
4. Provides differentiated instructional methods and content to ensure students have the opportunity to master what is being taught.

Dimension 2.4 Differentiation Overall Rating

Evidence/ Comments:

Dimension 2.5 Monitor and Adjust
The teacher candidate formally and informally collects, analyzes and uses student progress data and makes needed lesson adjustments.
The Teacher Candidate:

1. Utilizes input from students in order to monitor and adjust instruction and activities.
2. Adjusts instruction and activities to maintain student engagement.
3. Monitors student behavior and responses for engagement and understanding.
4. Is aware of most student responses but misses some clues of misunderstanding (Developing)

Dimension 2.5 Monitor and Adjust Overall Rating

Dimension 3.1 Classroom Environment: Routines and Procedures Overall Rating

Evidence/Comments:

Dimension 3.2 Managing Student Behavior

The teacher candidate establishes, communicates, and maintains clear expectations for student behavior.

Consistently implements the campus and/or classroom behavior system proficiently.

Most students meet expected classroom behavior standards.

Dimension 3.2 Managing Student Behavior Overall Rating

Evidence/Comments:

Dimension 3.3 Classroom Culture

The teacher candidate establishes, communicates, and maintains clear expectations for student behavior.

Engages all students in relevant, meaningful learning.

Students work respectfully individually and in groups.

Dimension 3.3 Classroom Culture Overall Rating

Evidence/Comments:

Additional Evidence/Comments for Domain 3 - Learning Environment:

APPENDIX A: MEMORANDUM OF UNDERSTANDING – PDS

MEMORANDUM OF UNDERSTANDING CONCERNING AFFILIATION OF STUDENTS FOR EDUCATIONAL FIELD EXPERIENCES
This is a Memorandum of Understanding on the part of Wichita Falls ISD hereinafter referred as “District”, and the Gordon T. and Ellen West College of Education, hereinafter referred to as “University”.

B. PURPOSE:
(1) The purpose of this Memorandum of Understanding is to guide and direct the parties, respecting their affiliation and working relationship, inclusive of anticipated future arrangements and agreements in furtherance thereof, to provide high quality clinical and field experiences for students in the University's College of Education, while at the same time enhancing the resources available to the District for provision of services to its students.
(2) Neither party intends for this Memorandum to alter in any way their respective legal rights or their legal obligations to one another, to the students and faculty assigned to the District, or as to any third party.

C. GENERAL UNDERSTANDING:
(1) These experiences in which University students will participate will be of such content, and cover such periods of time as many from time to time be mutually agreed upon by the University and District. The starting and ending date for each activity shall be agreed upon at least one month before the program commences unless otherwise agreed by the parties.
(2) These experiences will include: school and classroom observations; exploratory and pre-student teaching activities; special field studies and research projects; and student teaching/capstone experiences.
(3) Subject to the districts’ overall authority and supervisory responsibility for the education of its students, University student activities of whatever type will be administered cooperatively by selected members of the District staff and the University where formal arrangements for placement have been made. Working relationships between the University staff members and staff members of the District will be developed jointly, but final authority for activities in the schools rest with the administration of the District.
(4) The number of students to be assigned by the University to the schools in the District will be kept within reasonable limits based upon professional criteria, the most important of which is the welfare of the District’s pupils. In practice, the exact number of students to be received at any time will be determined by consultation between the Director of Certification and Compliance and the administrative authorities of the District.
(5) All University student participants must be mutually acceptable to both parties and either party may withdraw any student from a program based upon perceived lack of competency of the part of the student, the student’s failure to comply with the rules and policies of the District or the University, or, for any other reason where either party reasonably believes that it is not in the best interest of the program for the student to continue.
(6) There shall be no discrimination on the basis of race, color, national origin, religion, creed, sex, age, disability, or veteran status in either the selection of students for participating in the program, or as to any aspect of the clinical training.

D. DISTRICT RESPONSIBILITIES:
(1) The District will retain responsibility for the education of its students and will maintain administrative and professional supervision of University students insofar as their presence and program assignments affect the operations of the District.
(2) The District will provide adequate facilities for participating students in accordance with the objectives developed through cooperative planning by the University’s departmental faculty and the District’s staff.

(3) The District staff shall, upon request and upon proper authorization, assist the University in the evaluation of the learning and performance of participating University students.

(4) The District shall provide for the orientation of both University faculty and participating students as to the faculty, philosophies, rules, regulations and policies of the District.

E. UNIVERSITY RESPONSIBILITIES:

(1) The University will use its best efforts to see that students selected for participation in this training program are prepared for effective participation in the clinical for field experience phase of their overall education. The University will retain unlimited responsibility for the education of its students.

(2) Prior to the commencement of a student field experience, the University will, upon request and with proper authorization, provide responsible District officials with such information about prospective participation as will adequately disclose their prior education and related experiences.

(3) The University will use its best efforts to see that the clinical or field experience programs at the District are conducted in such a manner as to enhance the education of the District’s students. Only those students who have satisfactorily completed the prerequisite portion of their curriculum will be selected for participation in a program.

(4) The University will encourage student compliance with the District’s rules, regulations and procedures, and use its best efforts to keep students informed as to the same and any changes herein. Specifically, the University will keep each participating student apprised of his or her responsibility:
   a. To follow the administrative policies, standards and practices of the District when the student is participating in this program.
   b. To report to the District on time and to follow all established regulations during the regularly scheduled operating house of the District.
   c. To conform to the standards and practices established by the University while training at the District.
   d. To keep in confidence all personally identifiable information pertaining to students of the District.

(5) Upon request by the District, students shall submit to a criminal background check, the result of which shall be furnished directly to the District for review. The University shall not review or certify the results of such check as it shall be the District’s sole responsibility to make a determination of placement prior to the student’s start date.

F. MUTUAL RESPONSIBILITIES:

(2) The parties will work together to maintain an environment of quality learning experiences for both University and District students. At the instance of either party a meeting or conference will be promptly held between University and District representatives to resolve any problems or develop any improvements in the operation of this program.

(3) Unless sooner canceled as provided below, the term of this affiliation for clinical training shall be two years, commencing on start date of (mm/dd/yyyy) and ending on end date of (mm/dd/yyyy). This Working Relationship and affiliation may be renewed by mutual written consent of the parties. It may also be canceled at any time by either party upon not less than ninety (90) days written notice in advance of the next training experience.
APPENDIX B: SUGGESTED CLINICAL TEACHING SCHEDULES

- **Week 1**: Clinical teacher observes the cooperating teacher and daily routines, noting the techniques and methods used to meet the needs of the pupils, learn names of students, get acquainted with faculty and staff, and begins planning to teach one class on Thursday of Week 1.
- **Week 2**: Teaches one to two lessons/classes daily using thorough, detailed lesson plans (longer version); takes responsibility for classroom routines; works with individuals and small groups; continue observing the cooperating teacher; team teaches with the cooperating teacher. If the cooperating teacher and university supervisor are satisfied with clinical teacher’s performance on the recommended lesson plan, then the clinical teacher may begin using the short version.
- **Week 3**: Plans and implements lessons for ½ or more of the day under the guidance of the cooperating teacher; continues to increase responsibilities for classroom routines, works with small groups and individuals; continues to observe the cooperating teacher (makes notes/asks questions/share ideas). By the end of week 3, parts 1-2 of MISL should be complete.
- **Weeks 4-6**: Increases planning, teaching, and classroom responsibilities to the point that the classroom is being managed by the clinical teacher under the supervision of the cooperating teacher. The clinical teacher should be independent for some period of time during the day; however, the cooperating teacher should be in the classroom at appropriate times for evaluation, feedback, and assistance.
- **Week 7**: Wrap-Up and transitions back to cooperating teacher. Clinical teacher teaches half-time until mid-day Friday. The rest of Friday may be spent in observation of other teachers in the building as arranged by the cooperating teacher. MISL submitted to the West College of Education by the end of week 7.
- **Week 8**: (Second Placement) Clinical teacher observes the cooperating teacher and daily routines; notes techniques and methods used to meet the needs of the pupils; learns names of students; and by the end of the week takes responsibilities for the routine classroom procedures, gets acquainted with faculty and staff, and teaches at least one lesson beginning on Wednesday or Thursday.
- **Week 9**: Teaches two or three lessons/classes daily using thorough lesson plans; takes responsibility for classroom routines; works with individuals and small groups; continues observing the cooperating teacher; team teaches with the cooperating teacher. If the cooperating teacher and university supervisor are satisfied with clinical teacher’s performance on the recommended lesson plan, then the clinical teacher may begin using the teacher’s lesson plan.
- **Week 10**: Plans and implements lessons for ½ or more of the day under the guidance of the cooperating teacher; continues to increase responsibilities for classroom routines, works with small groups and individuals; continues to observe the cooperating teacher (makes notes/asks questions/shares ideas).

**EC-6 Clinical Teachers:**

- **Weeks 11-13**: Increases planning, teaching, and classroom responsibility to the point that the classroom is being managed by the clinical teacher under the supervision of the cooperating teacher. The clinical teacher should be independent for some period of time during the day; however, the cooperating teacher should be in the classroom at appropriate times for evaluation, feedback, and assistance.
• **Week 14:** Wrap-Up and transitions back to cooperating teacher. Clinical teacher teaches half-time until mid-day Friday. The rest of Friday may be spent in observation of other teachers in the building as arranged by the cooperating teacher.

**Grades 4 – 8 and All Level Clinical Teachers:**

• **Weeks 11-13:** Increases planning, teaching, and classroom responsibility to the point that the classroom is being managed by the clinical teacher under the supervision of the cooperating teacher. The clinical teacher should be independent for some period of time during the day; however, the cooperating teacher should be in the classroom at appropriate times for evaluation, feedback, and assistance.

• **Week 14:** Wrap-Up and transitions back to cooperating teacher. Clinical teacher teaches half-time until mid-day Friday. The rest of Friday may be spent in observation of other teachers in the building as arranged by the cooperating teacher.

**Schedule for Growth of Responsibilities in 7-12 Clinical Teaching 14 Week Placement**

• **Week 1:** Clinical teacher candidate observes the cooperating teacher and daily routines, note techniques and methods used to meet the needs of the pupils, learn names of students, and gets acquainted with faculty and staff and begins planning to teach one class on Thursday of week 1.

• **Week 2:** Teaches one to two lessons/classes daily using thorough, detailed lesson plans (longer version); takes responsibility for classroom routines; work with individuals and small groups; continue observing the cooperating teacher; team teaches with the cooperating teacher. If the cooperating teacher and university supervisor are satisfied with clinical teacher’s performance on the long form lesson plan, then the clinical teacher may begin using the short version.

• **Week 3 & 4:** Plans and implements lessons for ½ or more of the day under the guidance of the cooperating teacher; continues to increase responsibilities for classroom routines, works with small groups and individuals; continues to observe the cooperating teacher (makes notes/asks questions/shares ideas). By the end of week 3, parts 1-2 of MISL should be complete.

• **Weeks 5-13:** Increases planning, teaching, and classroom responsibility to the point that the classroom is being managed by the clinical teacher under the supervision of the cooperating teacher. The clinical teacher should be independent and teach all classes for at least two weeks; however, the cooperating teacher should be in the classroom at appropriate times for evaluation, feedback, and assistance. MISL is to be submitted to the West College of Education by the end of week 7.

• **Week 14:** Wrap-Up and transitions back to cooperating teacher. Clinical teacher teaches half-time until mid-day Friday. The rest of Friday may be spent in observation of other teachers in the building as arranged by the cooperating teacher.
