The BAAS Degree with General Studies Concentration

The General Studies Concentration is a multi-interdisciplinary approach that will allow students to design their own course of study by selecting subject areas of choice. Students are able to form a coherent specialization that is unavailable elsewhere in the university as an organized plan of study. Students are able to pursue a particular intellectual or personal interest, or complete courses as professional development, which may be employment related. Students may select no more than 15 hours of business courses through the College of Business. A graduate would be prepared to work in a wide range of careers. Employment may be found in both the private and public sectors of the workforce, or students may elect to continue on to graduate and professional studies.

Occupational Specialty - 42 semester hours, and any additional hours necessary to meet the 120-hour university requirement.
