Fall Enrollment and the Budget

Operating budget revenues are driven by fall semester enrollment. For this fiscal year, the budget revenues were estimated at a fall enrollment of 6,150 headcount and 70,664 semester credit hours.

Our actual enrollment was 6,080 headcount and 70,546 semester credit hours. This includes 36 enrollments in Flower Mound with 360 semester credit hours.

Steps to mitigate this shortfall include scheduling the winter mini this December and increased retention for spring.
