Automated Budget and Evaluation System of Texas (ABEST)

735 Midwestern State University

This past year, 2022, has been a year of celebration and transition for Midwestern State University. The university became a part of the Texas Tech University (TTU) System on September 1, 2021, and moved into its centennial celebration year in 2022. MSU Texas is now the oldest institution in the TTU System, having opened its doors in 1922 as Hardin Junior College, the second municipal junior college in the state of Texas.

The leadership of MSU Texas changed on May 23, 2022 when Dr. JuliAnn Mazachek began her service as the university's 12th president. Dr. Mazachek has commented that among the many things that drew her to MSU Texas were the institution's long-standing focus on student success and its emphasis on high-quality teaching and learning. Additionally, she recognized the great potential for MSU Texas as a member of the Texas Tech University System, with the hallmarks of an education at MSU Texas being the exceptional opportunities for engagement in research, creative activities, and co-curricular and service programs. The university's centennial celebration has allowed the administration, faculty, staff, students, and alumni to pay tribute to its past, celebrate its present, and envision its future, while recognizing the tremendous possibilities for growth and success.

University Overview

The students at MSU Texas make personal connections through various academic and social programs. As many students will tell you firsthand, they are known by their names and are not just numbers. The university's alumni will tell you that the personal or professional connections they made at MSU Texas have played a foundational role in their personal and career success throughout their lives – even many years after graduation.

Students attending Midwestern State University choose from 49 undergraduate and 27 graduate programs, including the university's first doctoral program, the Ed.D. in Educational Leadership, added in 2021. MSU Texas provides excellent learning resources and a dedicated teaching faculty comprised of active scholars and experienced professional teachers.

MSU Texas opened a shared location in Flower Mound five years ago with North Central Texas College to better serve the Dallas/Fort Worth (DFW) Metroplex. At this location, baccalaureate completion degree programs are offered online or in a hybrid format to more than 500 students in education, business, and the health sciences, as well as the Bachelor of Applied Arts and Sciences degree. These high-demand programs prepare students at every stage in their professional lives for high-earning careers. Outreach to communities in north-central Texas, to the predominantly rural communities, as well as to the growing suburban populations between DFW and Wichita Falls, provide opportunities for students to complete a four-year degree with maximum efficiency and minimum expense.

MSU Texas continues to serve the educational needs of high school students and has expanded its dual credit offerings after reinstating dual credit in the fall of 2019. MSU's dual credit numbers continue to grow in the Wichita Falls area and the Dallas-Fort Worth Metroplex, with more than 200 students enrolled in the spring of 2022.

The university is dedicated to first-generation students and their educational success. More than half of MSU Texas' undergraduate students are first-generation and are the first in their families to obtain a four-year degree. MSU Texas is a First-Gen Forward institution and has been recognized in the last three years by U.S. News & World Report as a top performer for social mobility. This social mobility ranking measures how well the university is able to graduate students who receive Pell Grant funding. It is symbolic of MSU's efforts to support the needs and success of first-generation students, many of whom are from families with incomes of less than \$50,000 annually.

MSU Texas is committed to affordability. Graduate and undergraduate programs at MSU Texas continue to place at a high level in online college-ranking websites, especially for quality and affordability. These rankings identify schools based on graduation rate, net price, acceptance rate, and return on investment (ROI). Whether online, in a hybrid format, or in person, MSU blends strong preparation in writing, speaking, numerical literacy, and critical thinking with in-depth mastery of competitive fields.

735 Midwestern State University

In a significant effort to address affordability, the university expanded eligibility requirements for its signature need-based scholarship program, the Mustangs Guarantee program, in 2020. This program focuses on reducing a student's financial barriers to pursuing post-secondary education and allows students from families with income levels at or below \$65,000 (increased from \$50,000) to attend MSU Texas tuition and fee free.

Employers recognize the value interdisciplinary approaches in the arts and sciences have in all degree programs, including professional degrees such as health sciences, engineering, business, and education. Fundamentally, MSU Texas believes the benefits and the resulting skills developed through interdisciplinary study – a path of study that is more likely to be found in private institutions rather than at a public institution – are not only critical to the economic future of the state of Texas but will also afford employers a workforce of critical thinkers able to readily adapt and thrive in rapidly changing conditions.

Growth Initiatives

MSU Texas has continued several growth initiatives to positively affect its future.

1. The Priddy Foundation Scholars program, a partnership between MSU and The Priddy Foundation of Wichita Falls, is now awarding four-year, full cost-of-attendance scholarships to 50 first-generation students. The number of active students in the program will grow to 60 by 2024-2025. In addition to the scholarship covering full tuition, fees, books, housing, and dining, it also includes one summer term of study abroad. This scholarship is available to the most vulnerable first-generation students. Knowing debt is an inhibitor to enrollment and, even more importantly, the persistence of first-generation college students, and understanding the importance of this demographic to the future of Texas, The Priddy Foundation Scholarship has effectively removed the cost barrier for students in the program. One of the benefits to the university in meeting the goal to graduate Priddy Scholars within four years, debt-free, and prepared to engage in successful careers and civic leadership, has been the ability to identify and provide the most important services and supports needed by first-generation students to be successful. Based on this evidence, university services to all current and future first-generation students who study at MSU are being enhanced.
2. To improve access and affordability for an increasingly diverse student population, MSU Texas continues to broaden educational pathways by adding articulation agreements with various Dallas County and Tarrant County Community College District campuses. Additionally, MSU Texas is a partner school of the Dallas County Community College District Foundation's Dallas County Promise, which is an effort to ensure college access to students of Dallas County. MSU Texas has also joined the Red River Promise and Texoma Promise programs to expand its outreach to students in the North Texas region and ensure access for lower-income and underrepresented students.
3. MSU Texas takes pride in working with the Wichita Falls Independent School District (WFISD), the Zavala Hispanic Initiative, and Café Con Leche to provide programming throughout the year as well as summer opportunities to low-income middle-grade students in Wichita Falls. These programs create a culture of high expectations and utilize a curriculum of academic and non-academic (life skills) components to encourage college attendance and graduation goals. More importantly, these programs prepare students to enroll in pre-AP and AP courses in high school, which is a significant predictor of college attendance.
4. MSU Texas has created and offers a series of signature minors. These minors allow students pursuing a wide range of degrees to supplement their traditional study with a minor in related areas of study offered by the institution. The attainment of these minors in addition to the major area of study can significantly add to a graduate's relevance and marketability, thereby expanding opportunities and readiness for the workforce. They include fields such as Non-Profit Management, Cybersecurity, High-Performance Computing, Marketing Communication, and Entrepreneurship. The university has also progressed in incorporating high-impact educational practices on a larger scale. These are practices recognized to have a profound and positive effect on a student's learning experiences. The university's first-year experience program,

735 Midwestern State University

study abroad, undergraduate research, internships, and service learning are of particular focus. These high-impact practices are currently used with great success and the institution is working to expand these opportunities to all MSU Texas students.

5. As a result of the much-appreciated Capital Construction Assistance Project funding approved in 2021, MSU Texas plans a renovation and addition to Bolin Science Hall as well as critical infrastructure upgrades. Reports on the progress and impact of these projects will be shared in future reporting.

Legislative Priorities

State funding to support the university operations is high on MSU Texas' list of funding priorities. Below is an outline of areas important to the university's overall funding needs.

1. Formula Funding – MSU's highest priority is funding the formula recommendations at the highest rate. Formula funding ensures that Texas public higher education institutions can provide high-quality teaching and support services for student populations to prepare them for the workforce. This stable source of funding from the state is a critical need.
2. Performance Based Funding for Comprehensive Regional Universities – The 87th Legislature recognized the importance of the state's 27 Comprehensive Regional Universities by passing SB1295 and using federal funding to support this legislation. MSU Texas supports the request for \$80 million in General Revenue to provide two years of performance funding for Texas' Comprehensive Regional Universities. This amount would provide each institution \$250,000 in base funding and \$1,000 per at-risk student each year. With this support, MSU Texas and other Comprehensive Regional Universities can help address the state's decline in direct enrollment from high school to college and close the gap in these institutions' graduation rates compared to the emerging research and research institutions. These efforts will add more skilled employees to the workforce and improve regional economies.
3. Non-Formula Support – MSU Texas receives non-formula support for only two items, Institutional Enhancement and the Small Business Development Center. The university requests continued funding for non-formula support items at current levels. Institutional Enhancement for MSU Texas provides operational dollars that are not available through formula funding.
4. Employee Benefits – MSU Texas requests the Legislature provide appropriations to cover the total funding of Higher Education Group Insurance premiums, plus increases in employee and retiree health insurance premiums beyond the institution's control. Additional state funding to offset these rising costs would assist the university in not passing increasing operational expenses on to students.
5. Student Financial Aid – The funding provided for TEXAS Grants is appreciated and the university supports any opportunity to give additional aid to students in the upcoming session. TEXAS Grants are essential in aiding low-socioeconomic students in pursuing higher education.
6. Hazlewood Exemptions – MSU Texas has a strong relationship with Sheppard Air Force Base (SAFB) in Wichita Falls, Texas, and appreciates the many veterans and their families from SAFB and other branches of the service who attend class and work on campus each day. While the university's support for individuals who have served and family members who have supported their service has not waned, the tuition exemptions of this important program continue to be a significant cost to MSU Texas of approximately \$2 million each year, with more than one-half of that amount provided to students through the Hazlewood Legacy program. MSU Texas respectfully requests the state consider fully or more adequately funding the Hazlewood Legacy exemption program for higher education institutions in Texas.

88th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

735 Midwestern State University

Non-Formula Exceptional Item Requests

1. STEM Expansion and Center for Excellence

Request: FY 2024 \$1,202,400; FY 2025 \$1,165,300

MSU Texas seeks funding to implement a Center for STEM Excellence and enhance teaching and learning experiences to improve student success and enrich student learning in STEM fields. This proposal would expand STEM courses, disciplines, and outreach to enhance recruitment, retention, and community development. The project invests in opportunities for students to choose new STEM career paths, create an ethically-grounded and STEM-trained workforce, expand technological innovations in learning spaces, meet workforce needs, and result in enrollment growth in STEM fields at MSU Texas. The proposal includes expanded virtual lab infrastructure and computer systems course options for degree completion students in programming, human-computer interface, cybersecurity, and gaming. The university will also diversify programs by adding micro-credential options for Sheppard Air Force Base students to improve the student experience and reinforce success on the path to a degree. This proposal will be strengthened as MSU Texas renovates and expands Bolin Science Hall, home of the McCoy College of Science, Mathematics, and Engineering, through capital construction funding authorized by the 87th Legislature.

2. Small Business Development Center

Request: FY 2024 \$56,014; FY 2025 \$56,014

The Small Business Development Center (SBDC), located on the MSU campus, is the primary provider of technical assistance to small businesses in the 13-county area of Northwest Texas. SBDCs have played a key role in business recovery from COVID-19. Additional funding of \$56,014 in each year of the biennium is requested to further the recovery of small businesses in rural and urban areas. The additional funding for the SBDC program is needed to continue providing services and partnerships designed to increase small business survival, resiliency, strategic business recovery planning efforts, and student internship learning opportunities.

3. Capital Construction Assistance Project (CCAP) Debt Service

Request: FY 2024 \$3,487,382; FY 2025 \$3,487,382

This request for the Renovation of Hardin Building and Infrastructure Upgrades will provide critical funding to transform the historic Hardin Building, the original and oldest facility on the MSU Texas campus built in 1937 with partial renovations in 1969 and 1988. MSU Texas is focused on student success and growth. This "Renovation of Hardin Building and Infrastructure Upgrades Project" will significantly enhance the experience of prospective students and their families, provide ready access and a welcoming environment to a central campus building, enhance services to students, increase efficiency, provide cost savings to the university, and will be a critical piece in renewing the campus as the university plans, reimagines, and revitalizes its presence in the higher education landscape of Texas.

Statement on Background Checks

In response to the request to describe Midwestern State University's practice regarding background checks, MSU's Department of Human Resources obtains background checks on all employees using the Texas Department of Public Safety and Risk Aware as allowed by the Texas Education Code Section 51.215 and Texas Government Code Section 411.094.

Conclusion

MSU Texas is committed to being a worthy partner to its community and state as a resource for livelihoods, educational degrees, job opportunities, and cultural involvement while considering health and safety in all that is done to serve its students. The university will do so by offering programs and services to provide students with competitive degrees leading to successful careers. At the same time, the university will continue to adjust budgets, class sizes, learning modalities, and living quarters to ensure efficient use, deployment, and investment of the university's valuable resources.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

CODE	DESCRIPTION	Exp 2021	Est 2022	Bud 2023	BL 2024	BL 2025
------	-------------	----------	----------	----------	---------	---------

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Beginning with the 1994-95 biennial period, the State implemented a funding practice for higher education wherein health benefits are based upon a finite amount. Employees and retirees added after the cut-off date are not considered for funding and must be paid through funds of the institution. This situation occurs only in higher education and not in all state agencies. It would be desirable if the State would consider group insurance funding for higher education the same as other state agencies.

FULL TIME EQUIVALENT POSITIONS:		48.5	43.5	50.5	50.5	50.5

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The MSU Small Business Development Center (SBDC) was started in October 1987 and is the primary small business advocate in the twelve county area in North Texas. Funding is requested to further enhance the rural outreach. Through the counseling and training programs, the SBDC has proven to be an excellent investment in Texas economic development. The MSU SBDC belongs to the North West Texas SBDC Regional Network which has finished top in the nation for the past several years regarding economic development measures.

The Texas Comprehensive Research Fund provides funding to promote increased research capacity at eligible general academic teaching institutions including those other than The University of Texas at Austin, Texas A&M University or any institution designated as an emerging research university under the Higher Education Coordinating Board's (THECB) accountability system.

Funding is to be expended for the support and maintenance of educational and general activities, including research and student services that promote increased research capacity.

A legislatively determined amount of funding is allocated based on the average amount of restricted research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB.

3.B. Rider Revisions and Additions Request

Agency Code: 735	Agency Name: Midwestern State University	Prepared By: Anna Daugherty	Date: 7/5/2022	Request Level: baseline
Current Rider Number	Page Number in 2022-23 GAA	Proposed Rider Language		
3	III-154	Governing Board. Out of the funds appropriated above, an amount not to exceed \$35,000 in each year of the biennium shall be for all expenses associated with the governing board's duties including, but not limited to: travel, entertainment, lodging, and expenses of state employees who provide services for the governing board. A separate record of the board's expenditures shall be kept and retained in the same manner as the fiscal records of the institution(s) the board governs. No funds may be used for the governing board's expenses except for the specific amounts designated above. Funds appropriated for the governing board's expenses may be used for any other purpose covered by this Act		
4	III-154	Appropriation of Special Mineral Fund. Income during the biennium beginning September 1, 2021, deposited in the Midwestern State University Special Mineral Fund No. 412 is appropriated in the funds above to Midwestern State University for the general operations of the university. Appropriations for the Midwestern State University Special Mineral Fund are \$1,934 in fiscal year 2022 and \$1,934 in fiscal year 2023. The available unexpended balance of funds for the fiscal year ending August 31, 2023 in the Midwestern State University Special Mineral Fund (GR-Dedicated Fund No. 412), estimated to be \$8,500, and included in the amounts above, are appropriated for the general operations of the university for the fiscal year beginning September 1, 2023. Any balances in Fund No. 412 remaining as of August 31, 2024, are appropriated for the same purpose for the fiscal year beginning September 1, 2024. Any revenues deposited during the biennium beginning September 1, 2023 to that fund are appropriated to Midwestern State University for the general operations of the university. Mineral Funds are estimated to be \$4,250 in fiscal year 2024 and \$4,249 in fiscal year 2025.

FULL-TIME EQUIVALENT POSITIONS (FTE):		5.00	5.00

DESCRIPTION / JUSTIFICATION:

Expanding STEM courses, disciplines, and outreach to enhance recruitment, retention, and community development. The proposed project invests in opportunities for students to choose new STEM career paths, create an ethically-grounded and STEM-trained workforce, and expand technological innovations in learning spaces. These goals align with the 2020 National Science Foundation report "STEM Education for the Future: A Visioning Report" and MSU's McCoy College of Science, Mathematics and Engineering (MCOSME) vision of "STEM Leadership, Diverse Scholarship."

EXTERNAL/INTERNAL FACTORS:

Create Center for STEM Excellence to oversee a campus and community makerspace, STEM nights, and other community outreach activities to develop and promote career paths and a STEM-trained workforce.

Implement student-centered, peer-to-peer mentorship and bridge programs to improve student success in first-year courses.

Support faculty professional development to foster retention-based best practices in non-major and first-year courses.

Expand virtual lab infrastructure to leverage the ability to teach laboratory principles for dual-credit, flipped, and distance education courses.

Add new electrical engineering program to build upon MSU's strong ABET-accredited mechanical engineering program.

Expand computer systems course options for degree-completion students in programming, human-computer interface, cybersecurity, and gaming.

4.A. Exceptional Item Request Schedule

CODE	DESCRIPTION	Excp 2024	Excp 2025
------	-------------	-----------	-----------

Diversify programs by adding micro-credential for Sheppard Air Force Base students that include capstone and technologically advanced courses to improve the student experience and reinforce success on the path to a degree.

Partner with area school districts to re-establish regional science fair and support the pipeline of STEM-interested students in grades 6-12 while enhancing teacher engagement in student-led STEM projects.

Impact of Not Funding:

MSU Texas received authorization from the state legislature for CCAP funding to renovate Bolin Science Hall, home of the McCoy College of Science, Mathematics and Engineering (MCOSME). This renovation will provide opportunities for the upgrade of and expansion of programs to recruit, educate, retain, and graduate students in STEM. If this request is not funded, MSU Texas will miss opportunities to grow enrollment in these strategic fields. Lack of funding will also hamper the university's work with K-12 schools and Sheppard Air Force Base.

Non-Formula Support Needed on Permanent Basis: No

Non-Formula Support Associated with Time Frame:

Will apply for external grants

METHOD OF FINANCING:

1	General Revenue Fund	56,014	56,014
TOTAL, METHOD OF FINANCING		\$56,014	\$56,014

DESCRIPTION / JUSTIFICATION:

The Midwestern Small Business Development Center opened in 1987, and is the primary provider of technical assistance to small businesses in the 13-county area of Northwest Texas. SBDCs have played a key role in business recovery from COVID-19. The SBDC services have increased small business survival. Additional funding is requested to further the recovery of small business in the rural and urban areas. As we move forward, in a post-COVID environment, small businesses in Texas are still experiencing operational and financial challenges, which may last over the next five years. The additional funding for the SBDC program is needed in order to continue to provide services and partnerships designed to increase small business survival, resiliency, and strategic business recovery planning efforts as well as student internship learning opportunities. Thirteen counties deserve the support of the SBDC, and it impossible to provide the deserved assistance

The SBDC has proven to be an excellent investment in Texas economic development. SBDC long-term advising assistance stimulates greater tax revenue from small businesses back to state and federal coffers. It increases value and capital of the small business clients that are greater than the direct cost of providing the service. For every \$1.00 invested in the SBDC, a total economic return of \$6.01 is generated .

EXTERNAL/INTERNAL FACTORS:

COVID-19 and inflation impacted Texas small businesses. The SBDC was the main point of contact for small business owners and commercial lenders during Covid-19. SBDCs are experiencing demands for help to overcome challenges in sales, supply chain, cost of operations, accessing capital, finding workers, inflation costs, and rising energy costs.

Major accomplishments to date: MSU SBDC Consultants are accredited by the Associate of Small Business Development Centers. SBDC continues to respond to business owners facing the COVID-19 challenges by assisting with applying for financial assistance. In FY20/21, the MSU SBDC helped clients to obtain over \$25 million of new capital. SBDC plays a vital role in assisting small businesses phase through recovery, resiliency, and reinvention. For every \$1 invested in the SBDC program, a return of \$6.01 is generated in state and federal tax revenue.

Automated Budget and Evaluation System of Texas (ABEST)

DATE: **10/17/2022**
TIME: **10:05:54AM**

Agency code: **735**

Agency name: **Midwestern State University**

CODE	DESCRIPTION	Excp 2024	Excp 2025
	Major accomplishments expected over the next two years: SBDC is the leading business technical assistance program. SBDC assists clients in opening and expanding businesses that create jobs, work with clients for exit and succession planning to save/retain jobs, and assist in recovery, resiliency and reinvention of businesses as a result of the pandemic. These SBDC activities result in improved performance of small businesses, in 13 counties served. Year established and funding source prior to receiving special item funding: 1987 - SBA federal matching grant. Formula funding: No Non-general revenue sources of funding: SBA federal matching & Wells Fargo Foundation grants. Consequences of not funding: The program will be reduced to a low level of staff, which reduces the assistance provided to small businesses; these staff terminations diminish small business' access to services. Also, not funding will result in a direct financial impact to the State of Texas; the decreases of new businesses and expansion of current businesses results in less tax revenue. DESCRIPTION / JUSTIFICATION:

Midwestern State University is seeking authorization for Capital Construction Assistance Projects Debt Service.

These Projects include the following:

EXTERNAL/INTERNAL FACTORS:

- Expand and renovate the 85-year-old Hardin Building. The cost totals \$30,000,000.
- Full replacement of tile roofing systems on Moffett Library and Fain Fine Arts Center buildings. The cost is \$3,500,000.
- Retrofit campus interior lighting to enhance environmental sustainability and reduce energy costs. The cost totals \$3,500,000.
- Install sprinkler systems to address life-safety enhancements in a number of campus structures including Moffett Library, Fain Fine Arts Center, J.S. Bridwell, Prothro-Yeager-Beawood-O'Donohoe Hall, and Hardin Building. The cost totals \$3,000,000.

	Total Expenditures		9.8%		\$2,011,915		\$20,571,472	7.3%		\$1,034,504		\$14,117,018

B. Assessment of Attainment of HUB Procurement Goals

Attainment:

Midwestern State University has not been able to attain the statewide HUB procurement goals for FY 2020 & 2021, with the exception of 2020 Commodities and 2021 Heavy Construction. Two exceeded the goals. Most categories were below the goals set.

Applicability:

All categories are applicable to agency operations in FY2020 and FY2021.

Factors Affecting Attainment:

There are very few HUBS in the Wichita Falls area, however there is continuous effort being made in all categories. Heavy construction, building construction and special trades construction were down for expenditures. Some local vendors we commonly use have fallen off the HUB list. Although, MSU did gain a couple of local HUB vendors in construction and commodities. There was an increase for informal bids for orders following appropriate procedures and ensured that HUB vendors were given equal opportunities to participate in the bid process.

C. Good-Faith Efforts to Increase HUB Participation

Outreach Efforts and Mentor-Protégé Programs:

MSU attended 1 Economic Opportunity Forum, hosted and attended 1 Annual Meeting, and hosted and attended 1 other training/meeting for the HUB Program. MSU does not participate in any Mentor-Protégé Programs.

Agency Code: 735 Agency: **Midwestern State University**

HUB Program Staffing:

At MSU there are 0 staff members dedicated to HUB. However, 5 out of 8 team members are responsible for the program. There is a yearly HUB fair on campus to provide awareness to the university about the importance of the HUB Program.

Current and Future Good-Faith Efforts:

Midwestern State University made the following good faith efforts to comply with statewide HUB procurement goals : We are challenged with our location for Heavy Construction, Building Construction and Special Trades for local HUB vendors. Training is ongoing within the university community to educate and make available HUB information and involvement in university purchases. All HUB firms are involved in our bidding processes. We actively search for HUB firms/companies as part of procurement process by using state CMBL. Every effort is made to meet goals for construction type contracts. Currently, to encourage participation in our procurement process, we ensure HUB's on and off the CMBL, are notified of any Bid request (formal and informal) With purchases and contracts, we have made it a priority to encourage the HUB program to campus and to increase our efforts to increase expenditures with HUB vendors.

Project ID #	Capital Expenditure Category	Project Description	New Construction	Health and Safety	Deferred Maintenance	Maintenance									
1	Renovation of Hardin Building and Infrastructure Upgrades	Hardin Building is the original and oldest facility on the MSU Texas campus built in 1937 with partial renovations in 1969 and 1988. It is the main entry to campus and houses key student services for both new and continuing students and their families. While both a historic and signature building on campus, the renovation will provide a contemporary Welcome and Student Success Center, as well as address needed modernization and safety improvements. An atrium addition to the building is necessary to provide an accessible entry way which will allow gathering space for these future leaders of Texas educated at MSU Texas. Critical campus infrastructure upgrades are also needed including 1) full roof replacements, 2) lighting retrofits, to enhance environmental sustainability and reduce energy costs, and 3) installation of life-safety sprinkler systems.	\$ 30,000,000	\$ 3,500,000		\$ 6,500,000	\$ 40,000,000	001	Tuition Revenue Bond	No	No		Total \$6,974,764. Project Description

The Hardin Building is the original and oldest building on campus and will be transformed into a contemporary "front-door" Welcome and Student Success Center. This one-stop-shop service model will allow MSU Texas to welcome and better serve current and future students and their families. The project will include an update to the interior of the building with modern finishes, with spaces optimized to best support today's student and workforce needs. An atrium addition will provide an accessible entryway to allow gathering space for these future leaders of Texas educated at MSU Texas. In addition to the modernization of the Hardin Building, the project will also address several infrastructure issues to repair and refresh campus facilities while implementing cost-effective utility conservation measures to reduce energy costs. Several academic buildings require full replacement of roofs as well as upgrades to enhance environmental sustainability and reduce energy costs.

Institutional Enhancement

(1) Year Non-Formula Support Item First Funded: 2000
Year Non-Formula Support Item Established: 2000
Original Appropriation: \$1,514,484

(2) Mission:

Institutional enhancement funds are used for faculty and staff salaries as well as various student retention efforts to address the goals of THECB strategic plan “Building a Talent Strong Texas!”

(3) (a) Major Accomplishments to Date:

These funds have been integrated into the university's fundamental and critical operations. They have been used to attract, hire, and retain faculty and staff committed to the mission of Midwestern State University.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Funds will be used to support faculty and staff as well as expand student retention efforts. The university continues to work toward increased graduation and retention rates with the ultimate goal of more degrees awarded.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

N/A

(5) Formula Funding:

None

(6) Category:

Institutional Enhancement

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

2021 - \$0

2022 - \$0

2023 - \$0

735 Midwestern State University

(9) Impact of Not Funding:

Because these funds have been integrated into the university's operations, removal of the funds would affect the university's ability to provide core academic services to students.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuation:

This funding has become part of MSU's base funding for faculty and staff salaries and there is no other alternate funding.

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

This item was never intended to be picked up through the formula process, but was part of enhancing the institution's academic offerings.

(13) Performance Reviews:

This funding provides base resources for faculty salaries and retention efforts. MSU has been increasing its graduation and retention efforts for more than 15 years.

735 Midwestern State University

Small Business Development Center

(1) Year Non-Formula Support Item First Funded:	2002
Year Non-Formula Support Item Established:	1987
Original Appropriation:	\$100,000

(2) Mission:

The SBDC's mission is to provide business consulting, training, and research to small businesses that create region-wide economic development, job retention and job creation.

The SBDC promotes the growth, expansion, innovation, increased productivity, disaster planning, and improved management for small businesses. This endeavor is accomplished through individual business advising and technical assistance, group training seminars and research information. Through our state office, Northwest Texas SBDC, MSU SBDC provides additional services to include manufacturing assistance and government contracting assistance to small businesses.

(3) (a) Major Accomplishments to Date:

- MSU SBDC continues to respond to business owners facing the COVID-19 challenges by assisting with applying for financial assistance. In FY20/21, the MSU SBDC assisted clients in obtaining over \$25M of new capital for their businesses
- SBDC plays a vital role in leading the way small businesses phase through recovery, resiliency, and reinvention
FY2020-21 Performance Measures: 104 businesses opened | 777 jobs created | \$25,612,328 capital formation | 1,181 clients assisted | 68 training sessions | 1,775 attendees
- For every \$1 invested, a return of \$6.01 generated in state & federal tax revenue
- Accredited by the Association of Small Business Development Centers
- Collaborate with rural Chambers and EDCs to serve rural business owners
- Partner with the Federal Reserve Bank for the Small Business Access to Capital Annual Survey
- The SBDC has continued to meet the reduction in state funding by reducing staff and travel as that is all remaining to reduce
- Collaborate with VBOC to present Boots to Business and Re-boot training programs for veterans
- Support ideaWF Business Plan Competition hosted by Lalani Center for Entrepreneurship & Free Enterprise in Dillard College
- Work collaboratively with the Center for Non-Profit Management and Leadership in Dillard College
- Host a PTAC Consultant at MSU SBDC. Results in assisting small business owners in acquiring government contracts

(3) (b) Major Accomplishments Expected During the Next 2 Years:

735 Midwestern State University

- The SBDC will continue to be the leading business technical assistance program and be instrumental in reshaping the local economy
- Continue assisting businesses in Recovery, Resiliency & Reinvention of businesses as a result of the pandemic
- These continued SBDC activities result in improved performance of small businesses, (rural businesses, contractors, minority and veteran owned businesses) in the 13 counties we serve
- Continue to assist small businesses in understanding and preparing for potential effects of sudden natural or manmade disaster regarding supply chains , operations, finances, payroll, distribution, and sale of products
- Assist small businesses in development of web integration, online sales and marketing, cyber security protection
- Continue providing in-depth research and industry data
- Be a key player in the “Falls Future 2.0” strategies of growing entrepreneurship and inclusivity
- Continue to assist clients in opening and expanding businesses that create jobs and working with clients in exit and succession planning in order to save jobs
- Partner with the Federal Reserve Bank for the Small Business Access to Capital Annual Survey
- Additional funding to allow the SBDC to be fully staffed and serving rural communities on a regular basis
- Continue to provide an outstanding ROI. In latest Chrisman/Vardeman Study, returning \$6.01 for every \$1 invested in the SBDC program.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

SBA Federal Grant Funding, On-going

(5) Formula Funding:

N/A

(6) Category:

Public Service

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

SBA Grant (Appropriated funds are used to meet the required match for the federal program)

(9) Impact of Not Funding:

- Additional reduction in funding for the SBDCs would reduce the program to a devastatingly low level of assistance currently being provided to small businesses
- Decreased funding at the state level would cause a drastic decrease in federal funds available to support small business development and sustainability throughout the counties we serve
- Many small businesses would not be able to receive the no-cost business advising that prepares them for survival and for growth as well as access to capital
- A decrease would result in additional staff terminations and diminish small business owners’ access to needed services
- Most importantly a direct financial impact to the State of Texas, due to the decrease of new business starts and a decrease in expansion of current businesses resulting in less tax revenue

735 Midwestern State University

(10) Non-Formula Support Needed on Permanent Basis/Discontinuu

- The SBDC is a federal program that requires matching funds
- Texas SBDC clients returns \$6.01 for every \$1 invested in the program according to the most recent findings of a national independent study by Dr. James J. Chrisman. He continues states that, “SBDC long-term consulting assistance is highly valuable from a public policy perspective b/c it returns tax revenues to state and federal governments, as well as value and capital to its clients that are greater than the direct cost of providing the service.”
- State matching funds secure federal dollars and to deliver assistance to small businesses in thirteen counties.

(11) Non-Formula Support Associated with Time Frame:

- The SBDC is an ongoing program whose clients return more to the state and federal government in taxes than the cost to administer the SBDC program.
- State matching funds secure federal dollars and together the sources allow SBDCs to continue offering business consulting, training, & research, resiliency and emergency preparedness to business owners and those starting businesses.

(12) Benchmarks:

- Exceeded all performance measures FY20 & 21. Performance results below:
- 104 businesses opened | 777 jobs created | \$25,612,328 capital formation | 1,181 clients assisted | 68 training sessions | 1,775 attendees

(13) Performance Reviews:

N/A

735 Midwestern State University

STEM Expansion and Center for Excellence

(1) Year Non-Formula Support Item First Funded:	2024
Year Non-Formula Support Item Established:	2024
Original Appropriation:	\$2,367,700

(2) Mission:

Expanding STEM courses, disciplines, and outreach to enhance recruitment, retention, and community development. The proposed project invests in opportunities for students to choose new STEM career paths, create an ethically-grounded and STEM-trained workforce, and expand technological innovations in learning spaces. These goals align with the 2020 National Science Foundation report “STEM Education for the Future: A Visioning Report” and MSU’s McCoy College of Science, Mathematics and Engineering (MCOSME) vision of “STEM Leadership, Diverse Scholarship.”

(3) (a) Major Accomplishments to Date:

N/A

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Create Center for STEM Excellence to oversee a campus and community makerspace, STEM nights, and other community outreach activities to develop and promote career paths and STEM-trained workforce.

Implement student-centered peer-to-peer mentorship and bridge programs to improve student success in first-year courses.

Support faculty professional development to foster retention-based best practices in non-major and first-year courses.

Expand virtual lab infrastructure to leverage the ability to teach laboratory principles for dual-credit, flipped, and distance education courses.

Add new electrical engineering program to build upon MSU’s strong ABET-accredited mechanical engineering program.

Expand computer systems course options for degree-completion students in programming, human-computer interface, cybersecurity, and gaming.

Diversify programs by adding micro-credential for Sheppard Air Force Base students that include capstone and technologically advanced courses to improve the student experience and reinforce success on the path to a degree.

Partner with area school districts to re-establish regional science fair and support the pipeline of STEM-interested students in grades 6-12 while enhancing teacher engagement in student-led STEM projects.

735 Midwestern State University

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

N/A

(5) Formula Funding:

None

(6) Category:

Instructional Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

N/A

(9) Impact of Not Funding:

MSU Texas received authorization from the state legislature for CCAP funding to renovate Bolin Science Hall, home of the McCoy College of Science, Mathematics and Engineering (MCOSME). This renovation will provide opportunities for the upgrade of and expansion of programs to recruit, education, retain, and graduate students in STEM. If this request is not funded, MSU Texas will miss opportunities to grow enrollment in these strategic fields. Lack of funding will also hamper the university's work with K-12 schools and Sheppard Air Force Base.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuation:

No

(11) Non-Formula Support Associated with Time Frame:

Will apply for external grants.

(12) Benchmarks:

Completion of items listed in future accomplishments.

(13) Performance Reviews:

Completion of items listed in future accomplishments.
