The Center for Continuing Education offers quality, diverse learning experiences for members of the community who wish to access the resources of the university in nontraditional ways. We offer a variety of enrichment courses, online development, and Continuing Education Units (CEUs). The Center facilitates the public service mission of Midwestern State University through extension of Center resources to audiences other than students enrolled for resident credit. The Center’s functions and programs include:

- **Continuing Education or Mini-courses** - non-credit short courses offered to the general public for topics such as art, computer, dance, language, and online certification courses.

- **Community Enrichment Events** - non-credit special events including guest speakers, collections, and presentations.

- **Continuing Education Units (CEUs)** - CEUs are beneficial if you need a record of non-degree learning experiences. Employers and professional associations increasingly recognize the CEU as a means of measuring substantive in-service education and training as well as serving to fulfill re-certification requirements. **CEUs do not count toward a degree.** Midwestern State University awards CEUs as appropriate for participation in conferences, seminars, workshops, and short courses. Participants would include healthcare and social service professionals, real estate agents, and others. One CEU is equivalent to ten contact hours.

- **Professional Development** - Teleconferences are scheduled throughout the year for professional groups to provide CE hours or re-certification. CE hours awarded that conform to board standards and requirements would include professions such as CPAs, social workers, licensed counselors, and real estate agents.
