

Add Video or Audio

To add video or audio to a module:

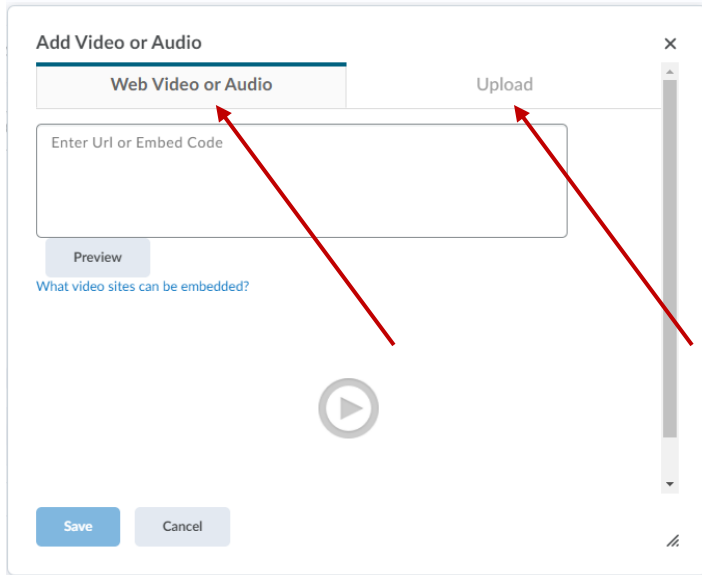

From your course homepage, click on **Content**.

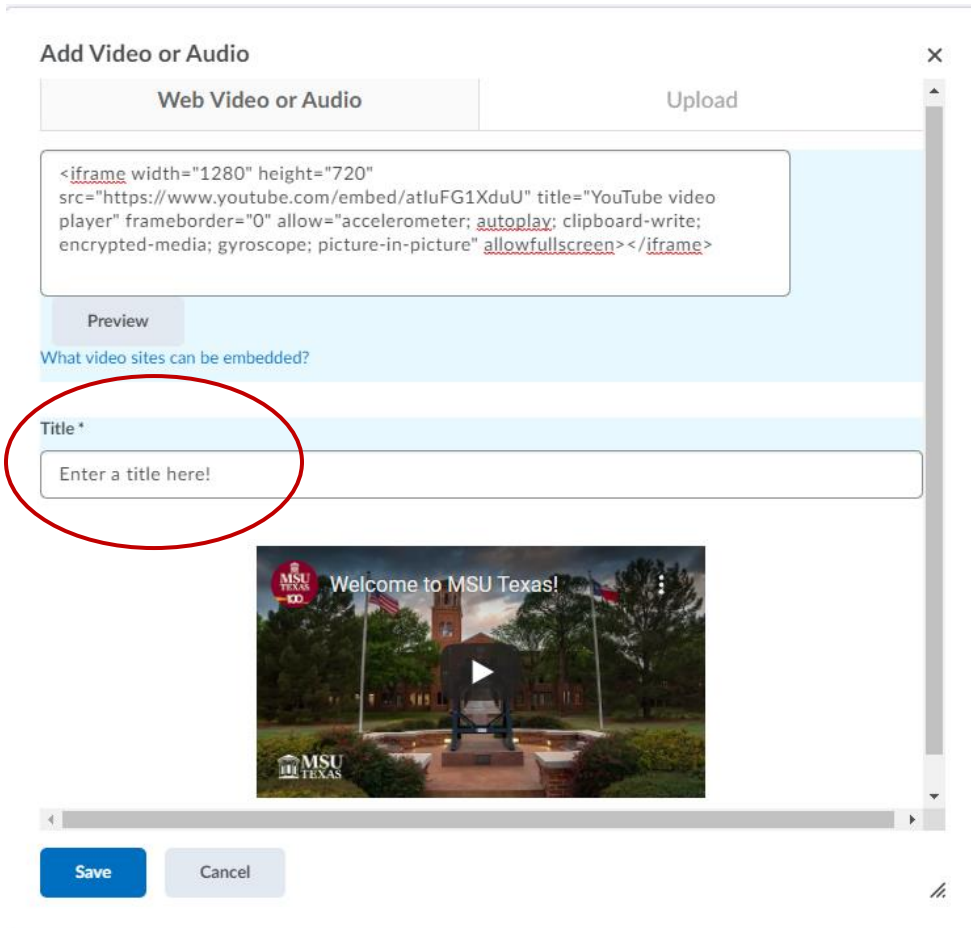

Navigate to the Module where you want to add the video or audio. Select **New**, then select **Video or Audio**.

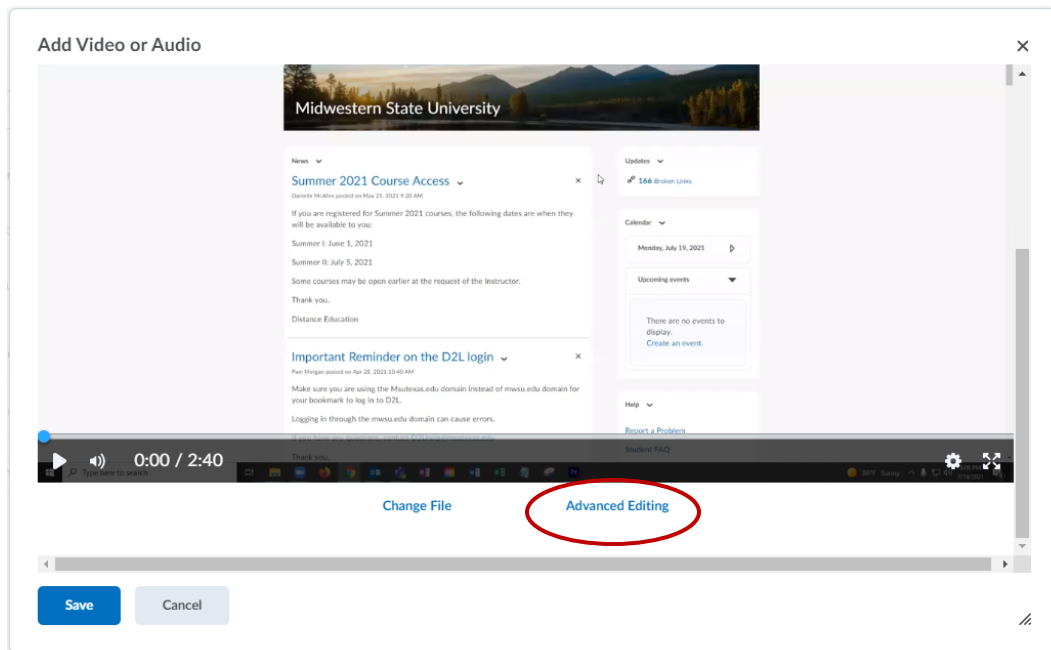

From here, you can add a web URL or embed code, or you can upload your own.

Below is a screenshot of what it will look like after entering an embed code. Be sure to **give your video a title!**

If you choose to upload your own, you have the option for advanced editing of the video or audio. Please check out our videos and PDFs on how to utilize the advanced editing options.

Once you have uploaded your video/audio or used a web URL/embed code, hit **Save**.
