

## Delete a Module

### Why Do I Need This Workflow?

There will be times when deleting a module (or topic) is necessary. In this workflow, will guide you through how to safely remove a module or topic from your course.

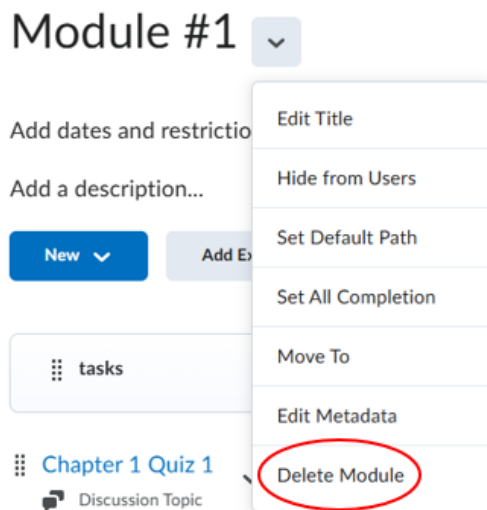

### Workflow Steps:

#### Step one:

Navigate to the Module you want to delete.

#### Step two:

Next to the title of the Module, click the drop-down arrow to open the context menu, then select **Delete Module**.

#### Note:

All modules, topics, and activities have a context menu. A downward arrow indicates that a menu is available.
