Setting Up Your Profile

You have the option to set up a profile. For example: uploading a picture to put a face to the name.

This video will show you how to set up your profile, again keep in mind that MSU's settings will be different, for example, there will not be as many fields to fill out in the contact information as shown in the video [here](#).

Profile settings are optional - we have the basic setup done for you, anything you provide here is additional and up to you!
