11/18/24 @ 3 pm
11/20/24 @ Noon
11/21/24 @ 9:30 am
11/22/24 @ 10 am
11/26/24 @ 11 am

Enhanced Dropbox Workflows

Dropboxes now allow for multiple evaluators.
This assists with courses with multiple instructors in managing
workflow and delegation when grading.
Evaluators can be assigned via built in methods.
Multiple evaluators may share a single evaluation or multiple
individual evaluations may be used.
Reach out to d2lhelp@msutexas.edu for assistance.

Coming This Spring!

Anthology Ally is an accessibility assistant built directly into
D2L! This new tool will allow faculty to see accessibility scores
of most materials in their course. Ally will then provide
feedback and assistance on how to fix non-accessible
materials. PDFs, Word documents, and PowerPoints are the
most commonly used course materials and Ally will help to get
those accessible!

Students will also gain access to convert content files into
alternate formats to better help with accessibility.

Watch for upcoming training opportunities!

Email d2lhelp@msutexas.edu to sign up for the training
sessions, they will be held via Zoom.
