

# CORPORATE PARTNERSHIP PROGRAM

To bring affordable educational opportunities to employees, Midwestern State University partners with companies and organizations to offer a **10% tuition and fee discount** on the Bachelors of Applied Arts & Sciences. Here are the specifics:

- 1 There is no cost to the Corporate Partner to set up a partnership - only the willingness to encourage employees to pursue their educational goals. MSU may ask that you share university information with your employees from time to time.
- 2 It is simply a commitment by the Corporate Partner to promote and encourage employees to further their education and to reach their educational goals.
- 3 No minimum number of employees need to enroll.
- 4 The partnership will remain active for 5 years with auto-renewal thereafter, or until either party chooses to discontinue the relationship.
- 5 Becoming a partner does not limit the employees to enroll in MSU only. It simply means that if any employee chooses to enroll in our university, they will receive the benefits included in the partnership agreement.
- 6 The corporate partner tuition discount can be used for the Bachelor of Applied Arts & Sciences degree program in all of the following concentrations:

- General Studies
- Technology
- Healthcare Administration
- Human Resources Development
- Criminal Justice
- Kinesiology
- Childhood Adolescent Studies
