A National Search for the 12th President of Midwestern State University

PRESIDENT PROSPECTUS
PRESIDENT SEARCH PROSPECTUS

Midwestern State University (MSU Texas), a component institution of the Texas Tech University System (TTU System), is searching for a dynamic, effective, and forward-thinking leader to serve as its 12th president. The next President will join the institution at a pivotal time as it celebrates its centennial in 2022. The TTU System Board of Regents and Chancellor Tedd L. Mitchell, M.D., invite nominations, inquiries, and applications from inspiring, visionary, and strategic leaders.

Established in 1922 as Wichita Falls Junior College, MSU Texas has grown into a comprehensive regional university with an approximate enrollment of 5,900 students at its main campus in Wichita Falls, Texas, and learning center in Flower Mound, Texas. Those attending MSU Texas choose from 49 undergraduate and 27 graduate programs. MSU Texas students represent 44 states and 54 foreign countries. The university provides excellent learning resources and a dedicated teaching faculty of active scholars and experienced professional teachers. MSU Texas is the only university in Texas to become a member of the Council of Public Liberal Arts Colleges (COPLAC) and, in 2009, was designated in state statute by the Texas Legislature as a public liberal arts university. The university boasts small class sizes and a thriving undergraduate research program, and offers study abroad programs in Spain, England, France, the Czech Republic, and Grenada West Indies. In addition to the quality education students receive at MSU Texas, they also have opportunities to engage in the campus and local communities through 100 student organizations and 13 NCAA Division II sports offered to enrich the university experience.

MISSION

Midwestern State University is a leading public liberal arts university committed to providing students with rigorous undergraduate and graduate education in the
arts and the professions. Through an emphasis upon teaching, augmented by the opportunity for students to engage in research and creative activities alongside faculty and to participate in co-curricular and service programs, Midwestern State prepares its graduates to embark upon their careers or pursue advanced study. The university’s undergraduate education is based upon a comprehensive arts and sciences core curriculum. The understanding that students gain of themselves, others, and the social and natural world prepares them to contribute constructively to society through their work and through their private lives.

VALUES

In fall 2021, the MSU Texas community worked to identify the core values that unite the campus community. A two-day Values Summit was held with more than 100 students, faculty, staff, and community members. Several town hall gatherings have been held to provide an opportunity for constituents to give input on the identified core values: People-Centered, Community, Integrity, Visionary, and Connections. Read more about the values at: msutexas.edu/about/values-journey/

STRATEGIC PLAN

The university’s strategic plan, approved in 2017, was developed following a year of campus review and discussion. The campus developed strategies and tactics to meet the four initiatives, and progress is assessed each year. This plan serves as the foundation for the university’s preparation for reaffirmation of accreditation from the Southern Association of College and Schools Commission on Colleges in 2023. The strategic initiatives for MSU Texas are:

• Promote a strong university community.
• Aggressively pursue new student populations.
• Create a destination residential university.
• Stimulate a culture of engagement.
THE UNIVERSITY

For nearly a century, Midwestern State University has educated generations of leaders and served as a beacon for higher learning. During this time, the university has emerged as a leading public liberal arts university in the state of Texas—and beyond—and is primed for continued growth and development as it enters its second century.

STATE OF THE UNIVERSITY

MSU Texas is positioned well for continued and future success. In 2016, the university launched its first comprehensive capital campaign, raising more than $76 million in five years, exceeding the $50 million campaign goal in the first 29 months of the six-year campaign. These funds are earmarked for scholarships, faculty appointments, faculty development and research opportunities, campus infrastructure, and student life enhancements. Currently, funds held by the MSU Foundation, Inc. total $69.5 million, and MSU Texas endowments total near $32.7 million.

Fall 2021 enrollment was 5,797, and roughly 42% of new degree-seeking undergraduates are transfer students or graduates of two-year institutions. Recognized as a First-gen Forward Institution, 54% of incoming students identified as the first in their families to attend college.

MSU Texas exceeds its peer institutions on most metrics of student success. The four-year graduation rate is 23%, and the six-year rate is 44%. The first-year retention rate for the class entering in fall 2020 was 63%, a dip from the previous year’s cohort of 66%. MSU Texas awarded a total of 1,349 degrees in FY 2021, 208 of which were at the master’s level.

MSU Texas also is a diverse institution. As of fall 2021, 49% of the total student population identified their race/ethnicity as white, 21% identified as Hispanic, 14% identified as Black, and 3% identified as Asian. Additionally, there is a robust international student body, with a particularly large contingent from the Caribbean.

The university has a proud tradition of providing an excellent and affordable public liberal arts education to students. The average annual tuition and fees for resident undergraduate students for 30 semester credit hours is approximately $10,315. The institution is committed to keeping the cost of education affordable, even in the face of changing budgetary pressures. Recognized for its affordability, MSU Texas has not relied solely on tuition increases to alleviate financial difficulties, and the average annual academic cost rose only 1.9% between 2021 and 2022.

$124 million
BUDGET FOR FY 2022
Many MSU Texas undergraduates receive grant or scholarship aid. In 2020, 85% of enrolled undergraduate students received grants or scholarships at an average of $8,495. Roughly 40% received federal (Pell) grants, averaging $4,747, and 47% received federal student loans, averaging $6,800.

MSU Texas employs 247 full-time instructional faculty, 131 part-time faculty, and 422 benefit-eligible staff. The university also offers student employment and the College Work Study program. On average, the university employs 1,250 employees, including students and temporary employees.

More than 44,500 MSU Texas alumni reside in all 50 states while another 460 alumni live in countries outside of the United States, extending the university’s reach around the globe.

JOINING THE TTU SYSTEM
In fall 2019, the MSU Texas Board of Regents began to consider a change in governance options seriously. The Board had become increasingly interested in maintaining the dynamism for which MSU Texas was known as enrollment leveled at 6,000 students despite seeing the steady growth of peers and having adequate capacity for an additional 2,000 students. It became more apparent that aligning with a university system could offer MSU Texas the increased visibility, support, and direction to ensure its place in Texas’s competitive public higher education environment. In early 2020, an official invitation was sent from the Texas Tech University System (TTU System) to MSU Texas to consider becoming the fifth member institution in its system.

Following several months of information gathering, town hall meetings, and input from campus, alumni, and community constituents, the MSU Texas and TTU System boards negotiated and approved a memorandum of understanding to pursue legislative action for MSU Texas to join the TTU System. Legislation for this action was approved by the Texas Legislature and Governor, and MSU Texas became a member of the TTU System in September 2021.
Midwestern State University has been recognized by U.S. News & World Report as a top performer for social mobility for three consecutive years.
## Points of Pride

### Named a First-gen Forward Institution
by the Center for First-generation Student Success

### One of only three universities in Texas to offer an undergraduate degree in substance abuse counseling

### MSU Texas Police Department
named a Recognized Law Enforcement Agency by the Texas Police Chiefs Association Law Enforcement Recognition Program.

### One of only four universities in Texas to offer an early childhood through 3rd grade certificate and the only one in the state to deliver it through a competency-based education format.

ACADEMICS

Midwestern State University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate and graduate degrees. The university’s most recent reaffirmation occurred in December 2013, and no recommendations for improvement were issued. With a student-to-faculty ratio of 16:1, the individual attention provided through smaller class sizes allows students and faculty to make meaningful connections. Teaching and learning take place throughout the university in a variety of programs including a strong undergraduate research program, vibrant study abroad opportunities, and internship programs in the arts, sciences, business, and health sciences, as well as residential living-learning programs.

MSU Texas offers baccalaureate and graduate degrees through its six colleges and its graduate school.

· Dillard College of Business Administration
· Lamar D. Fain College of Fine Arts
· Robert D. & Carol Gunn College of Health Sciences & Human Services
· McCoy College of Mathematics, Science & Engineering
· Prothro-Yeager College of Humanities & Social Sciences
· Gordon T. & Ellen West College of Education
· Dr. Billie Doris McAda Graduate School

In addition, each of the six colleges house programs that are independently accredited by both national and regional accrediting bodies.
**Enrichment Experiences**

As a part of the university’s reaffirmation process with the Southern Association of Colleges and Schools Commission on Colleges in 2013, MSU Texas presented a quality enhancement plan that provides opportunities for undergraduate students to engage in high-quality research and creative activities with faculty. The result was the development of the Office of Undergraduate Research that oversees EURECA (Enhancing Undergraduate Research Endeavors & Creative Activities). The mission of the office is to promote and facilitate undergraduate research by providing incentives and a support system for undergraduate students to engage in high-quality research endeavors and creative activities in an interdisciplinary environment.

In addition to the emphasis on undergraduate research, teaching and learning take place through a variety of programs and student enrichment experiences including the Redwine Honors Program, study-abroad experiences, and custom-designed internships as well as residential living-learning programs.

**Flower Mound Student Learning Center**

As a public university, MSU Texas also serves its community, particularly when it comes to providing a trained workforce in critical areas. The Flower Mound Student Learning Center located in the Dallas-Fort Worth metroplex was designed to address the needs in workforce education for adult learners. Emphasizing select online programs to attract working adults who are seeking career advancement, the center is steadily making progress of meeting this need in a larger market. The center enrolled 535 students in fall 2021.

**The Priddy Scholars Program**

The transformational Priddy Scholars program provides full cost-of-attendance, including housing and dining, for 60 first-generation students for four years. In addition to supporting these students throughout their four years of education at MSU Texas, the program’s opportunities include student success workshops, career planning assistance, and study abroad.
STUDENT LIFE

Midwestern State University features a vibrant student life atmosphere with 100 student organizations encompassing student government, recreational sports, and special interest programs. Additionally, the university hosts 14 nationally affiliated fraternities and sororities. The Office of Student Involvement serves as the organizing body for student life at MSU Texas, and provides social, cultural, educational, leadership, and service programming, which fosters student learning and cultivates connections between students, their MSU Texas community, and beyond. Supporting the diverse student population at MSU Texas, the MOSAIC Cross Cultural Center provides resources, advocacy, and multicultural opportunities for the campus community that promotes self-awareness, identity, and culture.
ATHLETICS

More than 300 MSU Texas student-athletes bring a competitive spirit to 13 athletics programs participating in the Lone Star Conference. The Mustangs strive for excellence in the classroom, the field of play, and as servant leaders on campus and in the Wichita Falls community. In 23 years as a member of NCAA Division II, the Mustangs have claimed 13 regional championships, 51 conference titles, and an individual national championship, boasting a total of 113 NCAA postseason appearances. Since 2019, MSU Texas Athletics has finished in the top 25 in the nation among all NCAA Division II programs for service to the community with tennis, volleyball, cross country, and track finishing in the top 10 among their counterparts. That spirit of service was recognized with the NCAA Division II Award of Excellence in 2019, the top award for community engagement efforts.
Since its founding in 1922, Midwestern State University has grown from being a local junior college to a comprehensive regional university as a member of the Texas Tech University System, serving a wide and varied public.

Created in 1922 as Wichita Falls Junior College, the second municipal junior college in Texas, its earliest home was in Wichita Falls High School with which it shared both the building and faculty. Later, a legislative act and vote of the people of Wichita Falls set up a separate tax district to support the junior college.

In 1937, the college acquired a new, 40-acre campus of its own on the south side of town. Rising above the pastures and wheat fields was the recently finished Hardin Building, an impressive Spanish colonial structure with a distinct bell tower. That same
year, the college was renamed Hardin Junior College in honor of Mr. and Mrs. John G. Hardin.

During World War II, the establishment of Sheppard Field, later renamed Sheppard Air Force Base, added to the college’s community. Since that time, air base personnel and their families have been continuing participants in the campus academic programs.

The post-World War II years brought wider recognition to the institution and more change in the school’s mission and in its name. In 1946, the senior college division was added and accordingly the name was altered to Hardin College. In March 1948, the university became a member of the Association of Colleges and Secondary Schools. In January 1950, the name changed to Midwestern University, with the junior division remaining Hardin Junior College. Then, in January 1959, the university added a graduate school, which received full approval from the State Board of Education in August of that year.

A further change in the school’s status came September 1, 1961, when by action of the 56th Texas Legislature, Midwestern University became a part of the Texas Colleges and Universities System, and the junior college division was dissolved. In 1975, the Texas Legislature changed the name to Midwestern State University.

MSU Texas became the fifth member of the TTU System in September 2021, a testament to the growth and exceptional reputation of the university throughout the state. In 2022, MSU Texas commemorates 100 years since its inception. With the theme “Spirit Always Bold,” the centennial year honors the rich history of the university, celebrates its vibrant present, and envisions an exciting future for MSU Texas.

From its beginnings as a municipal junior college housed in a high school building, MSU Texas has become a state university and TTU System member offering a wide variety of academic programs in liberal and fine arts, mathematics, sciences, business, education, and applied sciences.
THE CAMPUS

Midwestern State University’s 255-acre campus is nestled among the city’s residential area, and includes 70 buildings, numerous playing fields, and an outdoor recreational facility near Sikes Lake. The campus community has access to the Redwine Wellness Center and outdoor aquatics center, Sikes Lake and Shipley Trail, special collections at Moffett Library, and the Vinson Health Center. Red-brick buildings, uniform architecture, and sculpted archways give the campus a collegiate feel. More than 1,400 students live on campus. Three traditional residence halls, two apartment complexes, and one living-learning community residence provide on-campus housing for students.

Throughout the year, MSU Texas offers more than 200 events to the campus and Wichita Falls community, including sporting events, guest lecture series, theatre productions, concerts, the MSU-Burns Fantasy of Lights, and several festivals.

The campus also is home to the Wichita Falls Museum of Art at MSU Texas. The museum is a cultural resource for the North Texas and Southern Oklahoma communities and beyond, and supports the university’s liberal arts mission and its educational, research, and service goals. The museum’s permanent art collection, exhibitions, and educational programs provide interdisciplinary and multicultural explorations of human creativity.
LOCAL COMMUNITY

Situated midway between Oklahoma City and the Dallas-Fort Worth metroplex, Wichita Falls offers the attractions of a major metropolis and all of the charm of a small town. A city of 104,000, Wichita Falls is the population center for North Texas and Southern Oklahoma, and is home to Sheppard Air Force Base.

As a vibrant community on the rise, Wichita Falls features short commute times, affordable housing options, inviting neighbors, and a rich history. A business-friendly environment has helped to encourage local expansion and recruitment.

The university collaborates with Downtown Wichita Falls Development to promote activities and events in the revitalized downtown to engage students, faculty, and staff into the local community. The downtown district is a must-visit destination offering a little something for everyone, including innovative restaurants, coffee shops, and urban wineries. A bit of adventure is also on the list with mountain biking and the Wee-Chi-Tah Trail.

Each August, the city plays host to the Hotter’N Hell Hundred, the largest sanctioned bicycle ride in the United States. With multiple community festivals each year, there is plenty of opportunity for engagement.

POSITION

The Board of Regents and Chancellor of the Texas Tech University System (TTU System) invite nominations, inquiries, and applications in its national search for the position of President at Midwestern State University (MSU Texas).

The President serves as the chief executive officer of MSU Texas and is responsible for the executive management of the university’s operations. The President provides overall leadership in the planning and management of the academic, administrative, athletic, community outreach, fiscal, international, operational, and auxiliary enterprise missions of MSU Texas.

The President is appointed by the Board of Regents of the TTU System with a recommendation from the Chancellor (the chief executive officer of the TTU System). The President reports directly to the Chancellor and is a peer-direct report with the Presidents of Texas Tech University, Angelo State University, Texas Tech University Health Sciences Center, and Texas Tech University Health Sciences Center El Paso. The performance of the President is evaluated annually by the Board and the Chancellor.

REQUIRED QUALIFICATIONS

Midwestern State University seeks an innovative and visionary leader with the following:

- Earned doctorate or equivalent professional degree from an accredited institution.
- Extensive professional, administrative, or public experience including experience relating to higher education administration or a university college.
- Demonstrated exceptional leadership and integrity in an academic and/or service environment.
- An exemplary record of scholarly, professional, and individual credentials.
- An established record of forward-thinking vision and innovation with proven record of growth and success.
- A commitment to applied diversity and interprofessional collaboration.
- An alignment with the university’s values-based culture.
- A commitment to and proven record of community partnership and collaboration.
RESPONSIBILITIES

The President is responsible for providing transformative leadership, focus, and strategic vision for Midwestern State University (MSU Texas) in collaboration with the university’s executive leadership team, and the Texas Tech University System (TTU System) Chancellor and the Board of Regents. The primary duties and responsibilities of the President position include the following:

• Oversees the development, administration, and coordination of all operations and programs of the institution.

• Establishes a clear vision for the institution and outlines appropriate strategic objectives and priorities, as well as the means to successfully achieve goals.

• Serves as an academic leader for MSU Texas, with support from the university’s provost, to ensure that MSU Texas provides a high-quality educational curriculum and talented faculty for the benefit of its students and teaching mission.

• Develops and implements plans and policies to ensure that MSU Texas remains in compliance with any accreditation requirements appropriate to the university.

• Provides leadership in growing the university’s student enrollment while maintaining excellence in teaching and advancing creative scholarship.

• Champions innovative student learning and student success across the academic enterprise and university experience.

• Actively works to ensure that the institution acquires the necessary public and private resources for successful achievement of the university’s goals and objectives.

• Drives fundraising activities by cultivating and stewarding donors that increase the university’s philanthropic support and address the needs of MSU’s colleges and programs.

• Understands the importance of and provides proper oversight of MSU Texas intercollegiate athletics programs and the Department of Athletics to support competitiveness and ensure NCAA and athletics conference compliance.

• Works closely and fosters relationships with internal and external stakeholders including students, faculty, staff, alumni and donors, community leaders, and military and regional partners.

• Understands the importance of the governmental process and possesses the skills to ensure that legislative goals on the local, state, and federal levels are identified and met.

• Fosters diversity and inclusion through a commitment to a diverse student body, faculty, and staff, and encourages cultural diversity throughout the institution’s curriculum, activities, and community involvement.

• Possesses the ability to work effectively in partnership with other university presidents, system administration, and other partners.

• Carries out other leadership duties and responsibilities as assigned by the Board and the Chancellor.
**DESIRED LEADERSHIP ATTRIBUTES**

Traits and abilities that are key to the success of the President:

- Unquestioned integrity, high energy, and demonstrated leadership and administrative abilities who can shape, articulate, and implement the dynamic mission of MSU Texas.

- Understands, embraces, and can represent the unique and ideal culture of the MSU Texas and Wichita Falls community.

- Compelling and energetic personality with a demonstrated history of strategizing, charting a vision, engaging multiple stakeholders, setting appropriate and reasonable fundraising goals, and meeting those objectives with personal integrity and sound financial management.

- Possesses an outstanding reputation for executive-level management with documented ability to administer and coordinate all operations and programs of the institution and to lead and manage change and growth.

- Merits broad-based respect to inspire institutional accountability, efficiency, fiscal responsibility, and the ethical and effective performance of all leaders and divisions of MSU Texas.

- Ability to communicate clearly and effectively to ensure efficient operations throughout the organization while fostering growth in enrollment, supporting creative and scholarly productivity, and upholding high academic standards.

- Successful record leading a financially complex institution to ensure proper administration of the financial affairs of MSU Texas.

- Understanding of the workings of a large university system along with knowledge of and/or experience with the business operations of large and comprehensive organizations.
OPPORTUNITIES FOR THE NEXT PRESIDENT

As President, there are many opportunities to elevate MSU Texas. They include, but are not limited to, the following:

VISIONARY & INCLUSIVE LEADERSHIP
MSU Texas is at a pivotal point in its history, approaching its centennial anniversary and having just joined a major higher education system in the TTU System. The new President should understand the university’s legacy, liberal arts mission, and trajectory, and also possess the skills and will to capture this momentum to take MSU Texas to a new level of prominence. Through inclusive, professional, and dynamic leadership, the President – and the university’s leadership team and campus community – can create a culture of trust and excellence by organizing and mobilizing teams to learn from one another, generate new ideas, and work together to benefit the institution.

COMMITMENT TO GROWTH, INNOVATION & SUCCESS
While student enrollment at MSU Texas has held steady in recent years, the university is committed to and understands the importance of growth. The next leader of MSU Texas will benefit from having a mindset and proven record of fostering growth, innovation, and success in the enrollment, retention, and graduation of students – specifically with first generation students. Beyond enrollment, the President should advocate for the cultivation of employee talent, diversity within the campus community, and necessary growth in other areas of the university.

COLLABORATION ACROSS THE TTU SYSTEM
Officially joining the TTU System in September 2021, MSU Texas has an unprecedented opportunity to develop collaborations with its fellow member institutions: Angelo State University, Texas Tech University, Texas Tech University Health Sciences Center, and Texas Tech University Health Sciences Center El Paso.

The next President will lead the institution’s continued transition as a member of the TTU System and has the opportunity to build the university’s academic, research, and engagement opportunities by leveraging this new partnership. The TTU System is one of only nine higher education institutions in the nation to offer programs for undergraduate, medical, law, nursing, pharmacy, dental, and veterinary education, among other academic areas, which allows for pipeline opportunities for pre-professional students.

COMMUNITY PARTNERSHIPS & ENGAGEMENT
MSU Texas is vital to the Wichita Falls community and North Texas region. The next leader should not only be accessible, visible, and an integral part of the MSU Texas family, but also the broader Wichita Falls community. Key partnerships and agreements with local high schools and Sheppard Air Force Base merit exploration and expansion. Recently, approximately $290 million in bond issuances were approved to support schools in Wichita Falls Independent School District, and Sheppard Air Force Base is the largest and most diverse training base in the Air Education and Training Command.

ALUMNI & DONOR RELATIONS
The next President will work in coordination with the Vice President for University Advancement and Public Affairs to further enthusiasm for fundraising and passion for the university’s mission. The new leader should sustain the successful precedent for fundraising, following the university’s first comprehensive capital campaign, and build community and alumni support. There is an opportunity to lead the development of a long-term, sustainable philanthropic strategy to grow and diversify the base of brand loyalty and financial support.
**HOW TO APPLY**

Inquiries, applications, and nominations may be submitted digitally in total confidence. Nominations for the position are welcome. The 12-member search committee is chaired by Vice Chairman Mark Griffin, member of the Texas Tech University System Board of Regents.

For more information or to confidentially discuss the search for a new president of Midwestern State University, please contact Dailey Fuller, who is assisting in the search:

**Dailey Fuller**  
Chief of Staff | Office of the Chancellor  
Texas Tech University System  
daily.fuller@ttu.edu | 806-742-0012 (o)

*Initial application materials should include:*  
• Letter of interest  
• A curriculum vitae with resume and/or biographical profile  
• Names, addresses, telephone numbers and email addresses of five references (who will not be contacted without permission)

Nominations and applications may be submitted digitally (PDF format) in total confidence to:

[ttus.msutexas.pressearch@ttu.edu](mailto:ttus.msutexas.pressearch@ttu.edu)

Interested individuals are encouraged to visit the website for MSU at:  
[https://msutexas.edu/](https://msutexas.edu/)

---

**APPLICANT REVIEW**

Confidential applications and nominations will be accepted until the position is filled. Applications should be submitted no later than **January 3, 2022**, in order to assure full consideration by the search committee.

**COMPENSATION**

The salary is competitive and commensurate with qualifications and experience.

The intent of this job advertisement is to provide a representative and level of the types of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the total of the specific duties and responsibilities of any particular position. Employees may be directed to perform job-related tasks other than those specifically presented in this description.

As an EEO/AA/Vet/Disability employer, the Texas Tech University System and its components will not discriminate in its employment practices based on an applicant’s race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, genetic information or status as a protected veteran.
Midwestern State University is one of six entities that make up the Texas Tech University System (TTU System). In total, the TTU System consists of a central administration, three general academic institutions, and two health-related institutions.

- Texas Tech University System Administration
- Midwestern State University
- Texas Tech University
- Angelo State University
- Texas Tech University Health Sciences Center
- Texas Tech University Health Sciences Center El Paso

Headquartered in Lubbock, Texas, the TTU System is a $2.5 billion enterprise with approximately 21,000 employees, more than 63,000 students, nearly 370,000 alumni, and an endowment valued at more than $1.3 billion. In its short history (established in 1996), the TTU System has grown tremendously and is nationally acclaimed, operating at 24 academic locations in 21 cities (19 in Texas, 2 international).

Fostering a culture of collaboration, sustainability, and excellence, the TTU System Administration provides its component institutions with leadership and services that support the fulfillment of each component university’s mission. The TTU System Administration provides autonomy for the component institutions while ensuring the overall fiscal health and stability of the system and supporting strategic initiatives of the component institutions.

During the 87th Texas Legislature under the leadership of Chancellor Tedd L. Mitchell, M.D., the TTU System welcomed MSU Texas as its fifth member institution during the 25-year anniversary of the system.

In addition, the TTU System is one of only nine university systems in the nation to offer programs for undergraduate, medical, law, nursing, pharmacy, dental, and veterinary education, among other academic areas.
