ADDENDUM ONE (1)

RE: RFQ 735-18-4283 Fire Alarm Inspection Services Bid

TO WHOM IT MAY CONCERN:

The following questions had been received prior to the last day for questions deadline and received the following responses:

- *Can you send me a copy of the current inspection schedule? **The annual inspection is performed at one time, typically over Christmas Break***
- *Are the inspections spaced out though the year or can all system be done at the same block of time? **At the same time in Dec/Jan***
- *If a bidder only bids the inspections and “no bids” the service rates will they be unresponsive? **Service is required on this IDIQ***
- *The title on the cover page for this bid is “IDIQ Annual Fire Alarm Inspections/Service” however the file name is Annual fire sprinkler inspection and service. Page 8 item A also references fire sprinkler. I just wanted to clarify that this is for fire alarm service and inspections only? **F/A service and inspection only.***
- *Is there an opportunity to bid the fire sprinkler inspections and service also? **Fire Sprinkler is under a separate IDIQ.***
