ADDENDUM TWO (2)

RE: RFP #735-19-8217 JS Bridwell Renovation

TO WHOM IT MAY CONCERN:

Please see Addendum 2 (Two) in separate link for Architect's notes and drawings regarding the questions from the first pre-bid meeting dated May 16, 2019.

Also the following questions have been received prior to the last day for questions deadline and received the following responses (Questions are in **black**/responses are in **red**):

- Would you please tell me what the estimated cost range for this project is?
\$900k-\$1.25 MM.
- With regards to the Demolition materials from the 2nd and 3rd Floors, will materials removed from the Demolition process be allowed to be disposed from a trash chute from each floor to a dumpster, or does all the materials have to be carried down via elevator or stairs?
A trash chute can be utilized, but the contractor is responsible for removing the window, re-installing it, repairing the surrounding wall, and repairing any damage to the exterior from the dumpster (i.e., ruts, broken sidewalks, etc.). Contractor is responsible for returning the area to its original, pre-construction condition.

Thank you,

Tracy Nichols
