4.8 Delivery

Responses with deliverables or commodities to be delivered must show number of days required to make delivery to place material in receiving agency's designated location under normal conditions. Failure to state delivery time obligates respondent to complete delivery in 14 calendar days. A five-day difference in delivery promise may break a tie. Unrealistically short or long delivery promises may cause response to be disregarded. Consistent failure to meet delivery promises without valid reason may cause removal from respondent list. Delivery shall be made during normal working hours only, 8:00 a.m. to 5:00 p.m., unless prior approval for late delivery has been obtained from the Director of Purchasing.

If delay is foreseen, respondent shall give written notice to Director of Purchasing. The agency has the right to extend delivery date if reasons appear valid. Respondent must keep agency advised at all times of status of order. Default in promised delivery (without accepted reasons) or failure to meet specifications, authorizes the agency to purchase supplies elsewhere and charge full increase in cost and handling to defaulting respondent.

Consistent and continued tie bidding could cause rejection of responses by the Agency and/or investigation for Anti-Trust violations.

When quoting delivery/freight charges, respondents will include **ALL** costs associated with the delivery of the commodities to include, but not limited to fuel surcharges, customs, duties, convenience delivery fees, limited access charges, etc. Delivery costs not included in the response will be the responsibility of the respondent.
