ADDENDUM THREE (3)

RE: RFP 735-2023-4388 Redwine Chiller Replacement Project

TO WHOM IT MAY CONCERN,

Please see the response to the question submitted below:

1. What size conduit and wire is existing? **Contractor should confirm the existing conditions in the field.**
2. Is the existing wire and breaker the correct size and amperage for new equipment? **It is the correct size for the existing equipment. If a vendor's equipment requires different wire size and breaker, it is the vendor's responsibility to replace these existing components and any other items necessary to meet code.**
3. Will there need to be any new circuits ran for new equipment? **Not by the Owner. If a vendor's equipment requires new circuits, the vendor is responsible for installing them**

Please remember to acknowledge this addendum on the Addenda Checklist.

The deadline for submitting responses has passed. No additional questions will receive a response.
Regards,

Joseph J. Mrugalski
