ADDENDUM ONE (1)

RE: RFP 735-2024-8236 Student Health Services

TO WHOM IT MAY CONCERN:

The following questions were received and below are the following responses in blue:

1. How many students do you plan to serve with virtual health services? **This will be dependent on the efficacy and availability of the service. MSU's fall 2023 enrollment is 5,573, with some 1,388 residing in campus housing.**
2. What EHR system do you use? **We currently use Point and Click.**
3. Do you have a budget defined/allocated for this project? **We have budgeted \$100,000 if there are costs for the service. It is unclear to MSU how the collection of insurance will affect costs in a virtual environment.**
4. Are you interested in mental health support as a component of a comprehensive health and well-being offering? **While we do have a virtual mental health provider, the university is open to bundling services for cost efficiency.**
5. Can you confirm the total number of students at Midwestern State University that will be accessing these services? **This service would be available to all 5,573 enrolled students.**

Please note: The date for submitting questions has passed. No additional questions will receive a response.

Please remember to acknowledge this addendum on the Addenda Checklist.

Thank you,

Tracy Nichols
