enhancing undergraduate research endeavors & creative activities

Purpose:

To identify current undergraduate concentrations into individual requirements of thirty-seven focus areas (mathematics and 35 other areas) and compare that information to the data from the 2013-2015 survey. The goal is to answer the question: "What are the current concentrations and requirements of the colleges when they offer offerings to meet the requirements?"

Method:

The data was collected from the 2013-2015 survey. The data was analyzed using Excel and the results were presented in a table.

Tracking Trends, 2013-2015
