#### **Administration and Finance**

April 19, 2018

To:

Suzanne Shipley, President Midwestern State University

**Board of Regents** 

Midwestern State University

From:

Marilyn Fowlé

Vice President for Business Affairs and Finance

Midwestern State University

SUBJECT:

Financial Report - March 31, 2018

Enclosed is the unaudited financial report for Midwestern State University for the seven months ended March 31, 2018. Total revenue for the institution, \$77.9M, is up 6.9% compared to the same period last year with largest changes realized in state appropriations (up \$1.9M), other grants and contracts (up \$1.0M) and tuition and fees (up \$709K). Operating expenses have increased from \$83M to \$85.8M, an increase of \$2.9M, 3.5%, from last year. The largest portion of this change, \$625K is an increase in depreciation most of which is attributed to the donated software maintenance expense. The next largest change was the increase in scholarships \$21.4M to \$21.9M, 2.7%. Payroll and related costs increased by \$630K, less than 2% overall from the prior year due to the university having a mandatory one month waiting period on any vacant positions.

Schedule 2 provides a comparison of original budgets with adjusted budgets and actuals through March 31, 2018, by fund type. The comparison of budgeted total revenue shows 102.3% of revenues have been received with five months remaining in the fiscal year. All of the state appropriations have been booked at this time (\$32.3M). All of the tuition and fees (87.6%) and sales and services of auxiliary operations (98.3%) for the fall and the spring semesters have been booked. Expenses are slightly higher than expected to the expense budget, with 62.6% expended and 58.3% of the year completed. The university expects to be very close to its budgeted revenue and expense budget.

Schedule 3 shows that the university was slightly below on its tuition and fees for the fall semester (under by \$234K) and \$146K ahead on its budgeted revenue in the auxiliary revenue sources. Spring followed the same pattern, with tuition and fees being under budget by \$642K (for a total shortfall of \$876K) and auxiliaries being over budgeted revenue with a positive \$437K (for a total over budget by \$582K). The university budgeted \$61.3M in tuition, fee and auxiliary revenues for year. The total raised as of March 31, 2018 is \$54.7M. The university's fall head counts was 112 below budget and very close to budgeted semester credit hours (496 credit hours under). Spring numbers were short by 227

Suzanne Shipley Page 2 April 19, 2018

headcount and 1,058 semester credit hours from budget. Schedule 4 reflects the use of tuition and fee reserves. All of the uses of reserves show in this schedule were included in the FY18 budget as presented to the Board of Regents in August with several additional sources of income (student union fee and scrap metal sales.

#### **Operating and Non-Operating Revenues**

Operating revenues for the institution are up 5.8% from last year, with most sources having increases with the exception of state grants and sales and services of educational activities. Other grants and contracts were up \$1.1M the most because of the new Priddy Scholarship Program. Student Tuition and Fees were up \$710K, 2.6%, because of a small increase in tuition and fee rates. Sales and Service of Auxiliary Enterprises, was up 6.6%, \$509K, due to an increase in housing and board plan rates. Nonoperating revenues were up 9.3%, \$2.6MK. The largest increase is seen in state appropriations, \$1.9M, because of the net of a cut in state appropriations (\$1.7M) and the increase for the Tuition Revenue Bond payments (\$3.6M). Gifts increased by \$310K, 8%, because of strides made on the capital campaign. Investment income was up \$289K, 32.6%, with additional interest being earned on Tuition Revenue Bond funds held in a flexible repurchase agreement. Overall, operating and non-operating revenues increased from \$72.9M to \$77.9M, a difference of \$5M, 6.9% over the prior year-to-date numbers.

#### **Operating Expenditures**

Schedule 1 shows that total operating expenses have increased from \$80.2M to \$82.2M, an increase of \$1.9M. This represents a 2.5% increase from FY17 to FY18. The largest decrease came from a drop in repairs and maintenance of \$229K because of timing difference on booking the software maintenance expense on donated software and purchased software from the prior year. Salaries and wages and payroll related expenses, the largest expense in the expense budget, increased \$629K over the seven months from the prior year. This represents a nominal 1.9% increase. Small increases in rentals and leases is due to increase rental cost on Memorial Stadium and renting of office space in Flower Mound, amounting to a change of 20.3%. Printing and reproduction also increased slightly with Flower Mound printing and mailing occurring this fall (13.9%). Depreciation grew 7.9%, \$625K, and scholarships almost flat from the prior year, 2.7%. Below Operating Expenses, Interest Expense on Debt is shown to increase by 32% from \$2.7M to \$3.6M. This increase is attributed to interest on the Tuition Revenue Bond debt service that was not on last year's finances for the entire year.

Schedule 2 compares seven months of budgeted expenditures (58.3%) to actual and reflects an average expenditure pattern that shows expenses slightly above expectations at 4.3%. Overall, the university is spending more than would be expected, 62.6%, with the largest positive deviations in Scholarships (92.4%). This overage is caused by almost all scholarships being awarded for the fall and spring semesters and almost none being awarded for summer. Faculty salaries are slightly above 58.3% at 65.9% because their salaries are spread out over nine months versus 12. Areas most under budget are maintenance and operations (39.9%), utilities (41.3%), and graduate assistant salaries (44.3%). The

Suzanne Shipley Page 3 April 19, 2018

Maintenance and Operations category is where most departments carry their department "reserves" and will roll forward funds in this category from one year to the next. It is therefore not surprising that expenses would be below expectations as the departments hold onto these budgeted funds from one year to the next. Summer utility expenses are higher than in the fall and spring and the expectation is the expenses will closer to the budget after the summer months.

#### Summary

The analysis of the institution's Fiscal Year 2018 budget shows a shortfall of tuition and fee revenue compared to the original budget. Auxiliary revenue appears to be above budget, with higher food service revenue than expected. Other revenues appear to be close to the budget. Overall expenses are tracking closely to budget (if not below) and the administration is taking steps to capture additional salary savings to help offset the revenue budget shortfall. There will be a few additional expenses this summer, which, after approval by the Board, will be above the original expense budget, specifically search expenses and salary and benefits for the Vice President for Enrollment Management and the Director of Title IX Compliance. Because of the larger than expected cuts from the state, the university expected to dip into reserves this year. Looking forward, the administration is taking measures to ensure a balanced budget in FY19.
